VOLUME 13.

THE VERNON RECORD, TUESDAY, SEPTEMBER 27, 1921.

NUMBER 74

ATTRIBUTES WAVE OF PROSPERITY TO FARM BUREAU

S. J. Enoch, Bureau Expert, Says Organization Has Occasioned Rise In Price Of Cotton—Outlines Purposes Of Association And Warns Against Attempts To Break Contracts.

The wave of prosperity sweeping at present over the United States is more attributable to the farm bureau than any factor in existence, S. J. Enoch, bureau expert, told a group of farmers assembled on the grounds in the rear of the library building Monday afternoon. This buoyancy has been occasioned by the system employed by the Cotton Association in marketing the crop of its members. The increased price for cotton has reflected itself through our entire economic structure bringing an immense amount of relief.

Mr. Enoch commenced his meeting on the court house steps, but an order from the presiding judge sent the gathering scurrying for other space. Court proceedings were said to be disturbed by the sound of the speaker's voice.

Organizations Distinct.

The farm bureau and the cotton associations are two distinct organizations, the speaker informed his audience. Although, of course, they are linked together by the same general purpose, the work of each is along an individual line.

In the event that present members regret having joined the farm bureau said Mr. Enoch, they must realize that now it is too late to back up. The contract entered into is absolutely binding, and cannot be broken under circumstances. Its validity has been tested in the courts, and found to be perfect.

Have Own Order

Members of the farm bureau are today receiving more advances on their cotton than previously for the entire sale of the same. Under the old system the grower brought his product to town and was forced to accept the grade put upon it by an individual who was usually interested in buying it for as low a price as possible. Today that work is performed by a bonded grader who has no other interest whatever than to establish a correct estimate of the cotton. Moreover, a government inspector is now present at the farm bureau grading centers to aid in the work.

To the insinuations of its enemies that the farm bureau is but a "flash in the pan," said the speaker, there is the compelling argument that the United States government has advanced it fifteen million dollars to carry on its work, and this policy would never have been pursued had the organization been found unsound. Texas banks, too, have advanced \$1,500,000 to the bureau as an expression of their faith in its principles.

Contract Inviolable

The farmer who thinks he can evade his contract by marketing his cotton in the name of his wife or boy is mistaken, said Mr. Enoch. Unless the boy is 21 years old, or married, his father has a right to convey a clean title to any of his property. Likewise, unless the wife has been previously signing all papers for her husband, he can dispose of property without her consent.

The argument that one's landlord will not permit marketing through the farm bureau also will not hold water, said Mr. Enoch. The manner in which the tenant disposed of his cotton did not concern the land owner before, and as long as he receives his fourth of the crop, he has no jurisdiction in the matter whatever. Farmers who face this difficulty are urged to communicate with the farm bureau at once.

Guarantees Member's Debts.

In the matter of mortgages, Mr. Enoch pointed out that unless it was directly specified that the cotton had to be marketed in the county in which it was raised, it had to be carried elsewhere. Bankers, too, cannot force the farmer to market his cotton until the mortgage falls due. When this occurs the grower can market only enough to meet his obligations.

The business of the farm bureau, asserted the expert, is to guarantee the debts of its members. It intends to make the banker more secure, to safeguard the interests of the merchant. It will be only a matter of time, he

"TAPS" FOR AMERICAN ZR-2 VICTIMS.

The Navy paid its last honors to sixteen American victims of the ZR-2 disaster, with impressive funeral services, in the Brooklyn, N. Y., Navy Yard. The photograph shows a Marine bugler blowing "Taps" over the coffin of Lieutenant-Commander Maxfield, one of the victims.

RAIN OF AID TO WHEAT FARMERS

MOISTURE COMES AT RIGHT TIME TO PROVIDE SEASON FOR LAND.

Rain of Saturday night and Sunday morning proved a benefactor for which county farmers have been anxiously waiting, that is, those who are seeding wheat. Many started this week last week and their number has been considerably swelled this week.

South of town the rainfall was reported as lighter than in the immediate vicinity of Vernon, and communities in this district may wait awhile before starting seeding in earnest. Where the moisture was sufficient, it provides season enough for the ground to get the wheat up.

Little damage to cotton is thought to have been occasioned by the rain.

said, until the first question asked the farmer applying for credit will be, "Are you a member of the farm bureau?"

Farmers Takes "Leavings."

Mr. Enoch compared the condition of the farmer with that of the merchant and pointed out the discrepancies that exist in favor of the latter. This state, he asserted, is due largely to the fact that townspeople demand the conveniences of life to which they are entitled, while the agriculturist has been satisfied with taking what he can get. No salaries for members of his family who toil in the fields, and the roughest conveniences at home have been the sorry lot of the farmer, he said.

There is no staple commodity in existence with the exception of cotton that the world cannot do without, said Mr. Enoch. He proceeded to review the uses of cotton, and its indispensability to the human race. Cotton as collateral was also praised by the speaker.

Is Economic Independence.

Mr. Enoch outlined the origin and success of the California Fruit Growers' Association, and asserted the cotton association can stabilize prices in just the same manner as well as guarantee a reasonable profit to its members. Unless the farmer can offer to his boy the same opportunities that the lad can find elsewhere, said Mr. Enoch, he has no right whatever in urging him to remain on the farm.

All that is required of members in the Farm Bureau Cotton Association, the speaker pointed out, is to follow their contracts. The remainder of the work is taken care of by the organization. The new era inaugurated by the farm bureau was likened by Mr. Enoch to the American forefathers who signed a declaration of independence from England. Entering into a contract with the farm bureau is equivalent to signing a declaration of economic independence, he said.

About 100 farmers heard the speaker's eloquent address.

THINKNS COUNTY SEED GOOD AS ANY

LUTHER WEBB SEES DANGER IN PURCHASE FROM OUTSIDE DISTRICTS.

Cotton seed grown in this county is equal to that produced anywhere, in the opinion of Luther Webb, local insurance dealer and formerly a cotton buyer, and there is no good reason why residents in this locality should go outside to buy it. The great danger, Mr. Webb points out, is from the dreaded boll weevil, and this menace is transmitted readily through the seed.

It is a fact, he said, that much of the seed purchased without the confines of the county comes from districts much nearer the infected areas than is Wilbarger. This county has been kept remarkably free from an invasion of the pest, and in the event it once secured a foothold here, the event would be little short of calamity. Not only the farmer but those in all branches of merchandising here would suffer heavily.

Alford As Example.

Mr. Webb mentioned having lived several years ago at Alford when the cotton crop in that vicinity yearly averaged in the neighborhood of 7,000 to 8,000 bales. This year, he said, with the boll weevil flourishing in that district, the yield is estimated at about 100 bales.

Salesmen are continually in Vernon and the surrounding country peddling their wares, he said, and each year several carloads of seed are usually shipped in. As far as is known this seed is not carefully inspected by an authorized agent, and could easily convey the boll weevil to this section.

Wilbarger seed, said the former cotton buyer, is grown in as many varieties as can be found anywhere and is of as good quality.

ROBINSON AND BYRD PLAN TO FILE ON NEW LAND

P. H. Robinson, Jr., and Frank Byrd left today for Tos, New Mexico, to look over government land recently opened up to ex-service men. The local prospectors intend filing claims for a section apiece. According to a ruling of the government, the time spent in the service is deducted from that necessary to prove up the land, and it will be necessary for Robinson to spend but seven months on the section to own it. This minimum is required from every one, as well as \$500 in improvements.

Others in Vernon are said to be contemplating taking up some of the newly opened land.

New Teacher for High School.

Miss Sallie Felman of Tyler, a graduate of the University of Texas, will come to Vernon to have charge of commercial courses and classes in history. She replaces Miss Jessie Hickman who has gone to Canyon as an assistant in Northwest Texas Normal.

COUNTY ENTRANTS GAIN HONORS AT CHILDRESS FAIR

Bourland and Sharp Take First Place With Transmission, And Joe Collins Reaps Practically All Honors In Shorthorn Class—Hog Show Said To Be Of Exceptional Quality.

Wilbarger county entrants in the Childress Fair last week, A. M. Bourland and Joe Collins, won distinction for themselves and the section they represented by exhibiting animals that were conceded by judges to be the best on display. Transmission, formerly Long Orange, Jr., the now famous Pol and China male owned by Bourland, Sharp and Alexander took first place in the aged boar class, and Bourland and Sharp also won premier honors with a yearling sow.

Mr. Collins garnered practically all the honors in the shorthorn class, and took almost all the grand championships. Victories for the local exhibitors were gained against a field of intense competition. Transmission was taken from Childress to Oklahoma City to be exhibited in the State Fair at that place and from thence will be taken to Dallas for the Texas State Fair from October 8-23. Mr. Collins will take the best individuals in his show herd to the Dallas Fair next month.

Hog Show Extraordinary.

The hog show at the Childress Fair was said by Wilbarger county Agent to outrival that of the majority of State fairs. Childress and vicinity is noted for a wealth of hog fanciers and breeders, who produce exceptionally fine specimens for show purposes. Exhibits came from all parts of West Texas, and according to the judge at the fair, he had seen no finer display of hogs outside the National Swine Show at Chicago. There were 250 hogs entered in the Childress Fair.

The agricultural exhibit at the Childress Fair was also exceptional. It is said that 42,000 persons attended the Fair during its session of four days, and 16,000 were in attendance during one day. Horse races and rodeo combined to insure entertainment during the exhibition.

CHINESE LAUNDRYMEN RETURN TO HOME LAND.

Hom Long, proprietor of the local Sam Lee Laundry, and his fellow worker Hom Fen left this morning for California where they will sail in about a month for their home in Canton, China. Both have families in the Orient. Their stay in the home land will be indefinite, and according to Hom Long, his wife might "no let me come back."

The travelers will remain in California for about a month, attending to the matter of passports and selection of the ship upon which they will travel. They will be on the Pacific for twenty eight days.

Missionary to Brazil Coming.

Dr. A. B. Deter, missionary to Brazil, will fill the pulpit of the First Baptist Church next Sunday at both hours. Dr. Deter has been missionary to Brazil from the Southern Baptist convention for about twenty years, and is home now on a furlough. He is said to be an interesting, informing, inspirational speaker and it will be a rare opportunity, friends say, to learn of the religious situation in the Republic in South America which is larger than the United States.

March Pullet Sits in September

J. A. Gilliland, local dairyman, is possessor of a prize sitting hen. At least, that is the way Mr. Gilliland feels. About March 15th one of his birds came off with a brood of chicks. The downy little fellows seemed vigorous, but gave no evidence of unusual qualities. In August one of the pullets started laying. She disappeared, and recently came in with a brood of her own, although she is only six months old. "What kind of chicken is she?" Mr. Gilliland was asked. "Just chicken," he replied.

Conference at Tolbert Sunday

Rev. R. V. Tooley announces his Fourth Quarterly Conference at Tolbert to convene at 2 o'clock Saturday. Rev. W. P. Garlin, presiding elder, will preach at 11 o'clock Saturday morning.

AMERICAN RELIEF WORKERS IN RUSSIA.

Workers of the American Relief Administration, aboard their relief train, entering Soviet Russia at the Latvian frontier. This is one of the first photos to arrive here showing American relief work in famine-stricken Russia.

PLAN DISARMAMENT CELEBRATION HERE

LOCAL UNION IN CHARGE OF PARADE AND ADDRESS ON NOVEMBER 11.

Roy E. Davis, local contractor, has received orders from headquarters of his union, B. M. and P. I. U., Indianapolis, to make preparations for a demonstration to be conducted in Vernon November 11 in behalf of disarmament. The same orders have gone out to every city in which a local is in existence.

The demonstration here, Mr. Davis said, will consist of a parade and a speech from a Dallas orator. Every citizen is invited to participate in the parade, and can ride or walk as he chooses.

Further details concerning the demonstration will be announced later through The Record.

LOCAL YOUNG PERSONS WED.

Marriage of Miss Beatrice Ladd and Roy Thompson Occurs Last Night.

Miss Beatrice Ladd, daughter of Mrs. J. W. Ladd of West Wilbarger street, and Roy Thompson, son of Mr. and Mrs. J. D. Thompson living about two miles west of Vernon, were married last night at 7:30 at the home of Rev. E. L. Moore, Presbyterian minister. Both are well known here, having been born and reared in this county. There were no attendants at the wedding. The ring ceremony was used.

The bride is a member of a family known throughout Wilbarger, and received her education in Vernon schools. She is a graduate of Holcomb Training School.

Roy Thompson also attended local schools, and of late has been associated in business with his brother, Herb, at the General Auto Supply Company on East Wilbarger street. He will continue there.

Patterson Awarded Damages.

E. W. Patterson et al in a suit against the K. C. M. and O. Railway Company in the district court were awarded damages Saturday to the extent of \$700 on account of fire on the plaintiff's land occasioned by a locomotive on the railroad. Patterson owns sections 17, 18, and 19 in block 11, and sparks from the locomotive are said to have burned over 1,000 acres, causing \$5,000 damages to the grass, and \$2,500 to the premises.

Ferrell's Condition Unsatisfactory.

Bob Ferrell, who is in Dallas suffering from a cut in his eye, is not progressing satisfactorily, according to a letter received here by friends this morning. Ferrell experienced a hemorrhage in his eye recently, and attending physicians have grave doubts as to whether or not it can be saved.

Girl to Mr. and Mrs. Self.

A baby girl was born to Mr. and Mrs. D. W. Self of West Olive Street Saturday, September 24.

SEES BUT ONE WAY TO FURNISH COUNTY WITH GOOD ROADS

Bob Price Thinks Bond Issue Affords Readiest Solution To Proposition—Points Out The Growth In Amount Of Travel—Wants Better Highways While "We're Still Living."

"We have to have good roads all right, and as far as I can see there is only one way to get them," is the observation of Bob Price, well-known Wilbarger farmer living in the eastern portion of the county. Mr. Price can see no better method of obtaining the goal in view than the issue of road bonds for the purpose of improving the highways.

Foard county and Wichita county are undertaking large improvement ventures, he points out, and Wilbarger cannot expect residents of those communities to be satisfied with "chuck" holes and sand in this vicinity when they travel back and forth.

Wants While Living.

Mr. Price compared the situation with an occurrence of an acquaintance who would drink no water except that from a well belonging to a relative nearby. One night he awoke at 2 o'clock, and started to dress. In reply to his wife's question, he stated that he was going over to the well for a drink. "But wait until morning," she remonstrated with him.

"Nope," he said calmly, "I want it while I'm living." The proposition concerning the roads is very similar, said Mr. Price. We need them "while we're living" and there is no point in putting them off until a future date. The farmer is of the opinion that there are but a few persons in the county who are against the project.

Travel Heavier.

In response to the argument outlined by some that travel flourished in the olden days without concrete roads and improvements, Mr. Price points out that there is more freighting between his vicinity, Rayland, and Vernon in a week now than in an entire fall several years ago. Coal and cotton demand a tremendous amount of hauling, he said. In former years the farmer could burn wood, but this supply has now been exhausted.

A road leading from Mr. Price's home to Rayland is a good example of what neglect will do, he said. Ten years ago this was considered as fine a stretch as any in the county. No improvements have been made upon it, and as a result it is practically impassable.

JURY DECREES CAR NEED NOT BE PAID FOR IN FULL

In a suit brought in the district court by Jim Jennings against Jack Orr for full payment on a car sold to the latter last year, the debt amounting to approximately \$2,400, the jury decided that Orr must pay \$675 with interest, and the costs in the case. About \$1,100 had already been paid in on the machine by Orr.

According to testimony submitted by the defense, Orr was sold a defective car. When he refused full payment, suit was brought by the dealer.

May Again Drill Noble Well.

R. Stewart, head driller on the Noble well, has returned from Denver and intimated that the company would again commence operation on its holdings on the Judd farm. Drilling was suspended more than a month ago at a depth of 3,000 feet in order that more finances might be raised. Considerable local money is invested in the Noble well.

Many Visit Childress Fair.

County Agent C. R. Jones and Mr. and Mrs. A. M. Bourland spent Friday at the Childress Fair. Mr. Bourland says they have a big show in Childress, and it is wonderfully well patronized. The exhibits were A-L. Childress people turn out better than do our folks to the County Fair, in the opinion of the Vernon visitors.

City Extends Water Service.

City workmen are extending a water pipe several hundred feet beyond the city limits on West Wilbarger street. The new line will supply houses in the vicinity, and will be utilized when more residences are conducted on the vacant lots along the thoroughfare.

MORE'S THEATRE PROGRAM

(Continuous From Noon Till Midnight)

NOW PLAYING—TO-DAY—TUESDAY

The Noted and Talked of Picture—"SENTIMENTAL TOMMY" featuring Greth Hughes, Mabel Tulliaferro and May McAvoy.—(fascinating story of Sentimental Youth)

Kineto Review—"BABY LORD" Comedy, "HOME RULE"

WEDNESDAY—Gladys Walton in "THE MAN TAMER" (Eye opening story of Circus-life, the girl who couldn't be Bluffed by Men of Lions)

SUNSHINE COMEDY—"MERRY JAIL BIRDS"

THURSDAY—BURT LYTELLE in "THE MAN WHO," (Romance of a Barefaced, Barefoot Bid for Fame)

VANITY Comedy—"HIS FOUR FATHERS"

COMING FRIDAY—TOM MIX in "BIG TIME ROUND UP"

**At More's Theater**

Today, "Sentimental Tommy"

Grizel has never been recognized as decent, because of the talent that lies over her mother, when Tommy Sandys moves to Thrums, her native village. He becomes her champion when he finds the other children tanning her. During the years that follows Tommy becomes famous and returns to the village of Thrums to find Grizel, now a beautiful girl of 18, in love with him. He only pretends to be in love with her and makes plans to marry her; but she discovers his true feeling in the matter and refuses to go through with the wedding. He goes away then for a long time; but when Grizel has a feeling that he is in need of her she follows him to Switzerland. Here she finds him making love to some other else and she returns home broken hearted. He follows her there and marries her and sees her nursed back to health and sanity.

Wednesday, Bert Lytell in "The Man Who."

Bedford Mills was only a bank clerk and the girl he loved would not marry him because she wanted a man who did things. So Beddie decided to be the "man." The thing he decided upon was to break the shoe trust and he started out by going barefooted. A host of people followed his example; and he got a great deal of free publicity; but the girl scorned him. It didn't matter for long, however; because he fell in love again and this time with the daughter of the shoe trust.

Thursday, Gladys Walton in "The Man Tamer."

Kitty Harrington's father, a lion tamer, is maimed by one of his lions, leaving her to do the act alone, and to fight off the advances of Delmar the circus manager, and Bradley Caldwell, a profligate young millionaire who is enamored of her. She ousts the circus to get rid of Delmar, but the other man continues to pester her. His father, seeing the possibilities in the girl, hires her to tame his wild son. This she does and the two proceed to fall in love. They then face the older man with misgivings but he admits he has schemed for just this result.

At The Pictorium.

Today, "A Child for Sale."

This unusual picture features Gladys Leslie, Creighton Hale, and the two children, Bobby Comely and Ruth Sullivan. It puts forth in dramatic form the injustices practiced by unscrupulous landlords in crowded districts in the city.

Wednesday, Constance Talmadge in "The Love Expert."

Babs is sent home from boarding school because she persists in carrying on her fanciful love researches instead of studying her lessons. Arrived there

FORMER GOVERNOR OF INDIANA FAMINE RELIEF WORKER

James P. Goodrich

James P. Goodrich, former Governor of Indiana, who sailed to Europe to join in the American Relief Administration in the famine-stricken areas of Russia. Ex-Governor Goodrich will be attached to the staff of Colonel William Haskell, director of the relief work.

she is just as bad as ever and her father sends her to Boston to visit a maiden aunt, who for six years has been engaged to Jim Winthrop. A wedding is still remote, however, because Jim has two sisters and an elderly aunt to care for. Babs decided that something had to be done and set out to do it by means of a fake telegram, which resulted in her going to Palm Beach. Later comes word of the aunt's marriage to the professor. This news does not break the handsome Jim's heart because the young "love expert" is there applying one of his remedies.

Thursday, Neal Hart in "Black Sheep."

This drama is based on the bloody warfare that was waged on the western plains during the last decades between the cattle-men and the sheep-headers. It is adapted from "Baa Baa, Black Sheep" which appeared in Short Story Magazine.

Marriage Licenses issued.

Marriage licenses have been issued to the following: Charles Priddy and Miss Irene Davis of Odell, September 16; R. L. Smithson and Miss May Lane of Vernon, September 16; J. C. Chisum and Miss Jettie Belle Sorrell of near Harold, September 16; C. S. Dunn and Miss Merle Sheldon of Electra, September 19; Robert L. Bonar of Crowell and Miss Ruby Spears of Vernon, September 20; Jodie D. Smith and Miss Willa Elizabeth Calvert of Electra, September 23; J. C. Robinson and Miss Grace Frazier of Vernon, September 24; Gilbert Yarbrough and Miss Stella Kinchloe, September 24; Roy B. Thompson and Miss Beatrice Ladd, September 26.

Everything in leather goods at Swartwood & Co. Adv. Itc

Roy Davis drove to Wichita Falls for the week-end.

Everything in leather goods at Swartwood & Co. Adv. Itc

Eric G. Schroeder attended the football game between Vernon and Wichita Falls Saturday.

Mrs. Mary Beckett left last Wednesday for Clinton to visit her brother.

Miss Dora Flack spent the week-end in Childress.

Mrs. Katherine Waggoner is visiting in Dallas.

Shopmade boots guaranteed for service, at Swartwood & Co. Itc

Mrs. Frank Edmonson has returned to Vernon to make her home. Her husband who is now deputy sheriff at Breckenridge will join her in about a month. Mr. and Mrs. Edmonson moved from Vernon to Breckenridge the first of the year.

Mr. and Mrs. Jed Morrow and baby returned Friday from an automobile trip to Fort Worth, Dallas, and Waco. Mr. Morrow attended the meeting of Rotary presidents and secretaries in the latter city.

Tom Lee, Hall county "breakdown" fiddler, is visiting his father south of town. Mr. Lee is contemplating locating in Vernon and believes this vicinity is excelled by none in the State.

AMERICANS BRING RELIEF TO STARVING RUSSIANS.

Refugees from the famine-stricken areas of Soviet Russia waiting in line in front of the first of the American Relief Administration's food stations, in Moscow, for their daily rations. This is one of the first photos to reach this country showing American relief activities in Soviet Russia.

JOHN BURGESS' RESIDENCE BURNS THIS AFTERNOON

The residence of John Burgess, near the corner of West Malice and Deaf Smith streets, completely burned this afternoon shortly after 1 o'clock. The blaze was occasioned in some unknown manner by a small girl playing inside the house while her mother was busy outside.

Three small children are in the Burgess family, and one was rescued from the flames just in time by a bystander. The flames had gained tremendous headway by the time the department reached the scene. The dwelling was a small, two-room affair.

Cotton Market Grows Stronger.

Vernon's cotton market opened somewhat weakly this morning at 20 1/4 cents but at noon had advanced to 21 cents. Cotton is again coming in quantity to the gins after the rain of last week-end.

Automobile Case in Court.

The case of Vernon Daniel et al vs. The Automobile Insurance Company of Hartford, Conn., is being tried in district court today.

We have a full line of school tablets. A stick of candy with each purchase. See the bicycle in our store. Star Cash Grocery, 621 Thacker street, Itc

Dr. O. W. Wilson, Eye, Ear, Nose and Throat Specialist of Wichita Falls, will be in Vernon next Sunday, October 2—office at The Standifer Hospital, 7421c Adv.

Let us fix your old harness and saddle; prices right and quality service. Swartwood & Co. Itc

Mr. and Mrs. W. T. Terry and baby were in Wichita Falls over the week-end. They witnessed the football game between Wichita Falls and Vernon.

Chandler Carraway spent the week-end with his family in Vernon.

D. E. Butler of Floydada was the guest Sunday of Miss Cleo Bowers. Mr. Butler was on his way to Baylor University where he has entered his senior year.

Mrs. Jordan Seriously Ill.

Mrs. M. E. Jordan, 77 years old, of West Wilbarger street, has been seriously ill since last week with heart trouble, and her life has been despaired of for some time. Ropes were stretched across the street yesterday to prevent traffic from passing the house, but were removed this morning at the sick woman's request. She has been in bad health for some time. Her condition this morning was somewhat improved.

Lubbock Paper Has 120 Pages.

The Record is in receipt of a copy of The Lubbock Avalanche containing 120 pages. This is an industrial and fair number. It contains 8 page sections on Alternaty, Crosbyton, and other municipalities on the South Plains. It is a remarkably complete story of that section, and is liberally patronized.

Mr. and Mrs. Sylvester Minger returned last week from a lengthy visit in Dallas.

Embezzlement Charge Dismissed. A charge of embezzlement against John Gant was dismissed last week-end by the district attorney.

Judd Builds Residence. R. B. Judd is building a modern residence one block west of the stand pipe. It will be constructed of brick.

Shopmade harness at greatly reduced prices at Swartwood & Company's Itc.

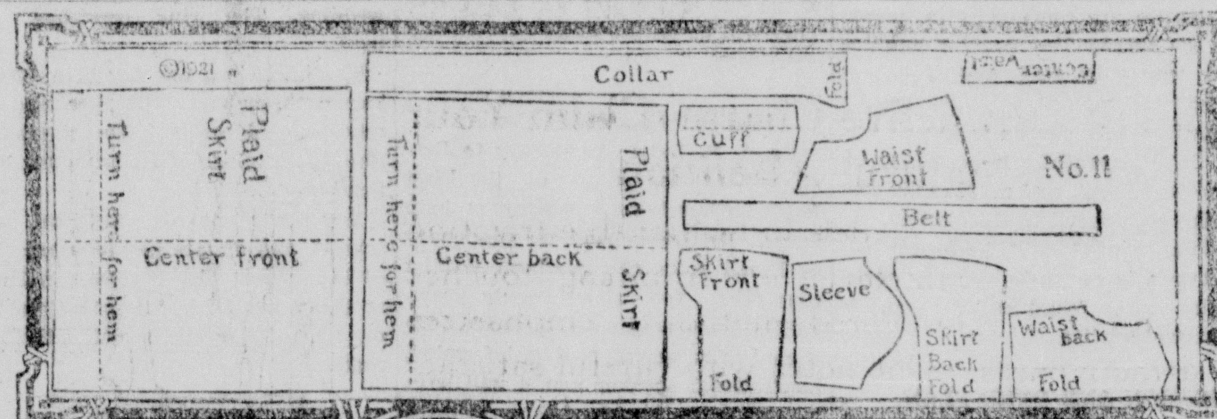

Mr. and Mrs. Robert Bomar of Crowell were in Vernon yesterday.

Shopmade boots guaranteed for service, at Swartwood & Co. Itc

Evans Mason left Sunday for Austin where he will attend the State University.

R. D. L. Killough went to Amarillo Friday on legal business.

Mr. and Mrs. O. T. Youngblood and three children of Paducah spent the week-end with their parents, Mr. and Mrs. T. J. Youngblood. Mrs. T. J. Youngblood, and daughter, Miss Oleta, motored to Quanah Friday to meet their guests.

**For Six Dollars Any Girl Can Make This Gingham Dress of Marion Davies'**

An All Round Bright Gingham Dress for Summer

By MARION DAVIES

Film Star of "The Restless Sex," "Daring Danger," etc.

What do you like better for real summer wear than a bright, crisp gingham dress? Nothing, I'll warrant, and I feel the same way about it. I like to call this my garden dress, but I wear it anywhere because it is so cool and comfortable, and piquante. I chose the reddish Scotch plaid on a background of white. I like the scarf effect of the collar and the plain bodice.

Did you ever try putting rings on the end of a scarf? It's great fun and this was my own idea, of which, I must confess, I am a little proud. I hemstitched the ends first and then found these rings that I had used on another dress several years ago. It is a good idea, I have found, to keep ornaments of that kind. You never know when you may want them. I put four on the belt, too.

You can make the exact replica of this dress for \$10 and even less. Follow the pattern carefully and I am sure you will find this dress as easy to make as I did. It took 3 1/2 yards of the plaid, 36 inches wide and 1 1/2 yards of the white of the same width. I used batiste for the white, but linen would be good or pique.

I made the pattern on the 1-16 reduction scale for size 36. If there is anything you would like to ask me about it, address me at Cosmopolitan Productions, 127th Street at Second Avenue, New York City.

Something to Show You! Something New!

The season's newest choicest niftiest merchandise is now on display in our store. Seasonableness, style, quality, and price are combined in this merchandise in such a way as to make this announcement more than ordinarily important to you. The goods listed on this page give you an idea of the completeness of our Fall line. Necessarily only a few items can be mentioned. Come in and see the others. You are always welcome at our store whether you buy or not.

LADIES' READY-TO-WEAR SECTION

An Unusual Offering of Autumn Coats and Coat Suits

You will go far before you will find better models than we present here. The three models pictured here demonstrate the leniency of dame fashion in allowing beauty of style and design to be distributed among the offering so that every model is a wonder of distinctive individuality.

We have these coats in luxurious plushes, all-wool Suede Velours and all of the finer wool fabrics favored this season. Our prices are very low and we earnestly urge you to inspect our stock before buying. Priced from—

\$9.95 to \$63.00

Lovely Suits of the
New Season Feature
the favored Fashion
Details

Keeping pace with every phase of fashion and adding touches of individuality that make for style distinction. These suits are also notable for many niceties of workmanship. Smartly cut collars, well set shoulders and snug sleeves emphasize expert tailoring. Materials are of tricotine and the finer wool fabrics favored this season. For suits of this superior quality pricings are unexpectedly moderate. \$23.45 to \$49.50

Dresses of Distinctive Charm Claim Your Thoughtful Attention

Unusually becoming models in fashionable tricotine and silk materials with clever new trimming touches in beadings and embroidered motifs to emphasize their attractiveness. One notes with careful satisfaction the tailoring on every garment. Priced from—

. \$17.85 to \$32.50

TEXAS A MANUFACTURING STATE

Judge D. F. Goss of Seymour insists
 that Texas mills should manufacture
 Texas cotton and woolen goods; Texas
 tanners should tan Texas hides and
 Texas shoe factories should turn out
 footwear for Texas, New Mexico, and
 Pan-America. Many other forward-
 looking Texans are voicing the same
 sentiments.

In fact it is difficult to understand
 why raw material produced on Texas
 farms and ranches should be sent to
 New England for manufacture and
 then sent back to be sold to the pro-
 ducers of raw material. Just now
 Texas is not nearly self-supporting
 in many lines. Texas money is sent
 away to buy meat and butter, fruit
 and vegetables, flour and nuts. All of
 these we might produce on our own
 acres.

Making Texas self-supporting in all
 of these lines means millions of dol-
 lars to Texas farmers and stockmen
 to Texas manufacturers and merchants.
 Texas has water power in the south-
 west, fuel in many sections, and an un-
 limited supply of raw material. Surely
 Texas has the men to make real-
 ities of all of these potentialities!

ENCOURAGE THE HOME TEAM.

Vernon's High School football team
 has a right to feel elated over the show-
 ing made Saturday against Wichita
 Falls. A nothing to nothing score
 should give the boys much to hope for.

And the winning of a high school
 football championship is no small mat-
 ter. This is no less true of the town
 than for the boys. Grown-ups have a
 pardonable pride in winners, nor is
 their pride lessened because the win-
 ners are of their own flesh and blood.

Vernon would be advertised no little
 by a championship football team. Such
 a finale to the present season would
 tend mightily to enthrall the boys with
 going to school especially so since they
 must make their grades to play on the
 team.

These are two big reasons why the
 Record hopes everyone will pull hard
 for the home team this fall.

WHY NOT PROSPEROUS

With 5,644 bales of cotton already
 ginned, why should not Wilbarger
 county take on an air of prosperity?
 At 20c a pound this figures well
 above the half million mark for cotton
 and seed. Of course, the farmers are
 feeling better, and when the farmers
 smile, it is almost impossible for the
 rest of us to look glum.

The rapidity with which cotton is
 coming in this year is remarkable.
 Nineteen hundred nineteen was a
 bumper crop, and yet at this time
 only about 375 bales had been handled
 by the public weigher in Vernon.

It is reasonably safe to estimate
 that the Wilbarger county farmer
 will receive approximately \$1,500,000
 this year from his cotton crop. Half
 that much was realized from the
 wheat harvest. Surely it is time to

chase "Old Man Gloom" out of the
 county, and while chasing "Old Man
 Gloom" why not lay plans for a three-
 quarter million dollar poultry crop
 another year?

THE WORLD'S LARGEST SUN-
DAY SCHOOL

Fort Worth, Texas, boasts the
 largest Sunday school in the world.
 The first Sunday in September 5,263
 men, women, and children were present
 at Sunday school in the First
 Baptist Church of that city. Twelve
 years ago the average attendance was
 fewer than 300.

The Rev. Frank Norris is pastor.
 All tracts, leaflets, or Bible
 helps put out by the Publishing Houses
 have been put aside; and each Sunday
 morning every class in every depart-
 ment studies the same chapter of the
 Bible.

You will see men in their work
 clothes and women in calico at Mr.
 Norris's church, a recent visitor says.
 "And they feel at home." This same
 visitor says that the pastor is strange-
 ly old-fashioned, highly doctrinal—
 but, withal, he stays close to the Bible.

No higher tribute to the Bible and
 Christianity can be paid than that is
 being paid daily by the women and
 men who are faithful attendants on
 the First Baptist Church in Fort
 Worth.

Current Comment

THE RUSH TO COLLEGE

The extent to which the young
 people of this country have acquired
 faith in the value of higher educa-
 tion may be gathered from college en-
 rollments which are now being made
 public. Smaller colleges as well
 as universities which have been heard
 from so far report almost incredible
 increases.

Despite some remarkable records in
 the past, it is certain that the rush
 to college this year will be greater than
 ever before. Even increased tuition
 and living costs in college towns as a
 result of this crowding are no bar to
 the great crowd clamoring for a col-
 lege education. In the schools in
 which it was decided to resort to stiff-
 er entrance examinations to keep
 down the enrollments even this has

UNIVERSITY PROFESSOR IS
NEW MINISTER TO DENMARK

Dr. John Dyneley Prince, professor
 of languages at Columbia University,
 who has been nominated by President
 Harding as Minister to Denmark from
 the United States, is president of the
 Civil Service Commission of New Jer-
 sey. He lives at Ringwood manor and
 is a close friend of United States Sen-
 ator Frelinghuysen, who recommended
 him. Dr. Prince was a member of the
 New Jersey Assembly in 1906-8 and
 Speaker in 1909. He was afterward
 leader and president of the State Sen-
 ate.

failed. The desire for higher educa-
 tion seems to overcome all obstacles.

For obvious reasons many educators
 had expected, if not a decreased, at
 least no greatly increased enrollment;
 so that they are now at a loss to explain
 this unexpected phenomenon. Others
 see in it nothing more than the fact
 that public interest in education is
 being taken up at the point where it
 stopped when we went to war. The
 demand for higher education, however
 strong it may seem now, is no greater
 than it would have been normally had
 there been no war.

A good share of the increased col-
 lege enrollment is due to the fact that
 the value of a college education is be-
 coming more widely known. No doubt
 the raising of the standards of educa-
 tion even in the high schools has much
 to do with this rush to college. Many
 parents who a decade ago were satis-
 fied with a high school diploma for
 their children are no longer satisfied
 with this minimum. They are apply-
 ing to education the slogan so familiar
 in the field of business. "The best is
 the cheapest in the long run." Cer-
 tainly our present rush to college ad-
 mits of no other interpretation.—Albu-
 querque Journal.

GIVES CHILDREN PICNIC.

Those Who Attended Nutrition Class
 Regularly Are Taken On Out-
 ing By Miss Eilman.

Miss Rose Eilman, public health
 nurse for Wilbarger county, took for a
 picnic in Allingham park Saturday
 afternoon the children in her nutrition
 class who have attended regularly dur-
 ing the three months course. Those en-
 joying the outing were Charles, James
 and Ruth Kell Lutz, Guy and Dorothy
 Wheeler, Glen and Annabelle Robert-
 son, Harold and Elmer, Jr., Wright,
 Pauline and Jack Cain, Patra Har-
 rold, Catherine Easterling, Bryan
 Devalghin, Frances Brown, Holmes
 Dollarhide, Betty Mae Brown, Nina
 Mae and Annette Smith and Zymena
 Trout. Four mothers were present.
 They were Mrs. J. E. Lutz, Mrs. Guy
 Cain, Mrs. E. G. Wright and Mrs. G. H.
 Wheeler. The little tots were taken
 out at 4 o'clock and had their supper
 and returned before dark.

A total of 73 children were enrolled
 in the nutrition class during the
 three months that Miss Eilman con-
 ducted it. All of this number have
 gained weight and many of them have
 gained five and six pounds, in spite of
 the excessive heat of the summer, a
 factor against which it has been
 hard to compete. Miss Eilman says
 she is very proud of the improvements
 made by the children in the class. No
 other will be started immediately but
 the Red Cross nurse hopes that the
 little folks will continue to come ev-
 ery Saturday to be weighed.

One of the greatest benefits which
 have been derived from the nutrition
 class, Miss Eilman says, is the chil-
 dren's learning to eat the proper foods
 and to take the required amount each
 day.

 to Texas A. and M. College where he
 will enter his senior year. He visited
 his aunt, Mrs. J. B. White.

CROWELL MAN WANTS ROADS

W. E. Kimsey Says Conditions Are
 Worse Now Than They Were In
 Pioneer Days.

Conditions of the roads are more de-
 plorable now than in pioneer days,
 according to W. E. Kimsey of the
 Foard County News. Mr. Kimsey was
 a Vernon visitor Saturday.

"For the most part, Foard county
 has better road-making material than
 you have," Mr. Kimsey told a reporter.
 "However, we have a big problem
 making it possible for the farmer to
 get to town without undue loss of time
 when he wants to market his crops.

"As I see it the only thing Wilbarger
 county can do is to pave her highways.
 this is especially true in the sand.
 Without this people are paying a big
 price for the privilege of riding over
 the almost impassible roads. It would
 cost a great deal less, in the end, to
 pave."

A VERNON MAN'S
- EXPERIENCE.

Can you doubt the evidence of this
 Vernon citizen?

You can verify Vernon endorsement.
 Read this:

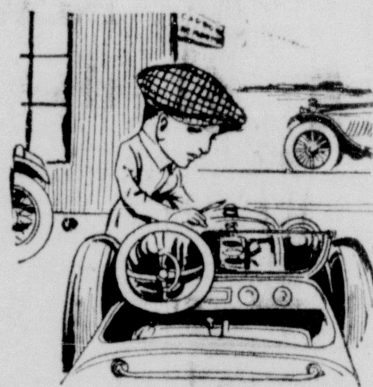

J. J. Manis, owns Auto Accessory
 store, North Bowie St., Vernon, says
 "Some years ago my back and kidneys
 were in bad shape caused from a strain.
 My back was so bad I could hardly
 turn over in bed. There was a heavy
 pain across my back and hips. My
 back was so sore and lame at night
 I couldn't sleep and mornings when I
 first got up I could hardly straighten.
 My kidneys were in awful shape and
 were inflamed, irregular and weak in
 action. The kidney secretions contain-
 ed a sediment and were painful in pas-
 sage. I used different kidney remedies
 but none of them did me any good. I
 finally bought Doan's Kidney Pills at
 Pendleton & Sons Drug Co., and two
 boxes of this medicine cured me of
 every symptom of kidney complaint.
 The cure Doan's Kidney Pills gave me
 has been permanent."

LATEST BICYCLE TIRES FROM WEST END LONDON.

Something new in Bicycle Tires, seen in the West End, London. This bicycle rider prefers enormous sized tires to the old-fashioned smaller ones. Although bulky looking and apparently heavier than the ordinary tire, they do not weigh more, are ten per cent speedier and, being air-filled and made of the best grade pure rubber, are as light and comfortable as the tires of a limousine.

Is Doubting Thomas No Longer.

"All medicines and doctors for stomach trouble proved worthless in my case. Everybody recommended something else, and nothing helped, so I became a doubting Thomas as to any cure. While in St. Louis a party praised May's Wonderful Remedy so highly that I bought a bottle and I am now a doubting Thomas no longer." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Save Pennies—Waste Dollars

Some users of printing save pennies by getting inferior work and lose dollars through lack of advertising value in the work they get. Printers as a rule charge very reasonable prices, for none of them get rich although nearly all of them work hard.

Moral: Give your printing to a good printer and save money.

Our Printing Is Unexcelled

People Read This Newspaper

That's why it would be profitable for you to advertise in it

If you want a job
If you want to hire somebody
If you want to sell something
If you want to rent your house
If you want to sell your house
If you want to sell your farm
If you want to buy property
If there is anything that you want the quickest and best way to supply that want is by placing an advertisement in this paper

The results will surprise and please you

(Musicians' Club to Meet)

The first meeting of the Musicians' Club for the year 1921-22 will be held at 3:30 o'clock tomorrow afternoon at the home of Mrs. Cy Long. The following program on Greigs' "Peer Gynt" has been arranged for that time: Dramatic reading, Mrs. J. J. Farrell; Piano Solo, "Morning Mood," Miss Enid McCarroll; Reading, "Peer And The Reindeer," Peer Gynt's Faithless Love," and "The Thrall King's Daughter;" Piano Solo "In The Hall Of The Mountain King," Mrs. Harry Colley; Reading "Peer Gynt and the Mountain King," and "Peer and Salveig;" Vocal Solo, "Salveig's Song," Mrs. E. C. Christian; Reading, "Peer's Farewell to His Mother;" Violin Solo, "The Death of Ase," Mrs. John Brown; Reading, "Peer Gynt Abroad," and "Peer Gynt at the Arab Camp;" Piano Duo, "Anitra's Dance," Mesdames T. L. Rouse and E. A. Vernon; Reading, "Peer Gynt in the Tempest;" "Peer Gynt in the Open Sea" and "Peer Gynt's Salvation."

Entertain With Bridge.

Misses Olea and Juanita Youngblood entertained the Tuesday Bridge Club and a number of extra guests this afternoon. Club members present were Mrs. George Hardin, Mrs. O. O. McCurdy, Mrs. S. S. Munger, Miss Esther Swartwood, Miss Mary Anderson, Mrs. Clint Swartwood and Misses Bob and Don Standifer. Others invited were Mrs. Everett Haney, Mrs. Joe Parker, Mrs. S. W. Bailey, Mrs. Frank Byrd, Mrs. R. H. Coffey, Mrs. A. B. Swartwood, Mrs. Howard Timberlake, Mrs. Dee Norwood, Mrs. Chandler Caraway, Mrs. Hub Coffey, Miss Lillian Murchison, Mrs. Della Housels, Mrs. W. K. Long, Mrs. Myatt Napier and Mrs. W. A. Wilhelm.

(County Federation to Meet)

The Wilbarger County Federation of Women's Clubs will meet at 3 o'clock Wednesday afternoon in the library. Matters of importance are to be discussed, it was announced, and a full attendance is desired. The October election, an estate meeting in November are to come before the meeting.

UNCLE SAM HAS DEVOTED YEARS TO STUDY OF POULTRY PROBLEMS

Poultryman May Work Out Best Methods for Himself, But It Costs Money and He Has Already Paid the Government for Doing It—Information Free.

Poultry raisers, whether engaging in the business on a large scale or owning only a small flock, will find it to their interest to get in touch with the United States Department of Agriculture when in doubt about the best methods to follow.

Visitors in Washington wishing to consult the department's poultry specialists are invited to call at their office and also to visit their experimental farm. The work in poultry feeding and breeding is conducted by the Animal Husbandry Division and that relating to diseases by the Pathological Division of the Bureau of Animal Industry.

Many bulletins are available dealing with various phases of poultry raising any of which may be had upon application to the Division of Publications, United States Department of Agriculture. In addition to the regular bulletins there are a number prepared especially for boys' and girls' clubs and persons beginning the poultry business without much knowledge of its requirements. A list of these may be had upon application to the same division.

Various Rations Tested

At the Department's experimental farm at Beltsville, Md., various rations are being fed to hens to study their effect. For example, in one experiment the hen balances her own ration; in another fish meal is included; in another hot wheat or wheat products are used; while cottonseed meal replaces a part of the bean scrap in another. Comparisons are also made of the effect of the same rations on hens of the egg breeds as compared with those of the general-purpose breeds. Only simple rations of widely available feeds are used. A large amount of data has been obtained on the feed cost of producing eggs.

Hens in considerable numbers are

being trap-nested, and matings made to determine the possibilities of different methods of breeding in increasing or fixing egg production. Matings to fix certain types or characters desired in the flocks are also made. No birds are retained in flock which have a disqualification that would bar them under the rules of the American Standard of Perfection. The results being obtained indicate that it is possible to combine utility and standard breeding to a practical degree. Any of this information is available for the persons requesting and the department is eager to have it used widely.

Boys' and Girls' poultry clubs have wide influence in interesting the children in raising chickens, and in teaching them and their parents the best method of handling poultry for the production of eggs and meat. The department cooperates with the State agricultural college in forming these clubs.

The department's activities include every branch of poultry raising, and this includes turkeys, ducks, guinea fowl, pigeons, and even ostriches. A small flock of ostriches is maintained at Glendale, Ariz., where their feeding, breeding, and management are being carefully studied. The production of ostrich feathers with special reference to their quality and to the eliminating of certain defects common to American feathers is receiving attention.

Getting Away From Bad Eggs.

The department is giving special attention to improving the quality of market eggs with a view to overcoming losses estimated at many millions of dollars annually. These studies cover the production of eggs on the farm and their handling from the farm to the country store. The production of infertile eggs, which are far superior in keeping qualities to fertile eggs, is being advocated.

VERNON BATTLES WICHITA TEAM TO TIE IN FIRST GAME

Local Lads Divide Honors Evenly In Football Contest Saturday—Home Team Makes Desperate Effort To Win By Use of Substitutes—Vernon Line Holds Splendidly.

Displaying a defensive that Wichita Falls at all stages of the game was practically unable to penetrate, and with an offensive of reasonably strong calibre, Vernon high school fought the lads from the oil city to a standstill last Saturday, the count standing 0 to 0 at the end of the game. There was little to choose favoring the work of either eleven, and the game was remarkably free from spectacular work of any sort.

Vernon's line proved the surprise of the day, the heavy Wichita backs failing utterly to make advances of any considerable length from tackle to tackle. Forward passes netted the only appreciable gain made by the home team. Vernon practically abandoned the aerial method of attack, and relied chiefly on straight football and kicking.

Line Plays Well

Small and Bramblett performed well in the backfield, and Coltzter showed up especially well in the line. The latter went down under the punts well, and broke through the opposing forwards repeatedly. There was but a shade of difference, however, between his playing and that exhibited by his mates in the line.

First Quarter.

Vernon kicked off at 4:15, Wichita returning about eight yards. Wichita kicked and Small returned a short distance. Small tried both ends for no gains, and kicked. Wichita blocked the ball and recovered the ball.

Wichita bucked the line but Vernon's defence proved impregnable. Wichita tried a forward pass which was incomplete. Another forward pass was incomplete and Wichita kicked to Vernon's 35 yard line. Small lost ten yards on an attempted run and kicked. Wichita passed for twenty yards. End of first quarter.

Second Quarter.

Vernon kicked and Wichita advanced the ball to the local's 20 yard line. Vernon's line held, and the ball went over on downs. Vernon kicked to midfield.

Wichita completed a pass for 12 yards and prepared for a drop kick. Goal was missed and it was Vernon's ball on their 20 yard line. Small's work at breaking up passes and tackling runners around end was one of the features of Vernon's defense. End of first half.

Third Quarter.

Wichita kicked off to Vernon's 10 yard line. Vernon intercepted a forward pass on Wichita's 25 yard line. Wichita then intercepted a Vernon pass on its 15 yard line.

Wichita kicked to Bramblett who made a pretty return. Vernon missed the snap back, and Wichita recovered the ball. Wichita bucked the line and attempted several forward passes, one of which Vernon intercepted. Vernon

MISS CHRISTMAN SITS IN UNEMPLOYMENT CONFERENCE

Some of the refugees may be seen preparing the food given them by the American workers. This is one of the first photos to arrive in the United States showing our relief work in Russia.

KIDNAPPED TWICE IN ONE EVENING; BOY IS HOME AGAIN!

To be kidnaped and spirited away from home before one can say "Jack Robinson" is sufficient experience if it happens but once in the life of a 7-year-old boy, but to be re-kidnaped the very same evening and whisked away in an automobile is really carrying the matter too far. At least, this is the opinion of a certain little youngster of that certain same age who is the son of a certain trained nurse in Vernon.

The lad was taken from his mother Friday night by his father when the latter came ostensibly to a local hospital to talk to the child. It was simply a matter of stooping, gathering the child swiftly in his arms from the porch, and running to a service car waiting nearby. Car, husband, and child disappeared in the night leaving a distraught woman wringing her hands and imploring some one to help her.

Sheriff Takes Hand.

Sheriffs have a knack in serving in every emergency from a murder to conducting a lost-found column, and Uncle Billy Ish is no exception to the rule. Hearing the mother's story, he quickly communicated with nearby towns and ere long determined that a man answering the description of the kidnaper departed from Frederick, Okla., in the direction of Vernon a few hours previously. It was discovered that the designing one abandoned his car at the Frisco bridge, walked over to the Texas side, and engaged the services of another automobile to bring him to town.

Standing in the sheriff's office were,

Frank O'Neal, deputy, and S. H. Baker, garage man.

Donates Use of Car.

"I'll donate the services of my new car," said Baker, when it was found that the husband had returned to Frederick with the boy, "and we'll go over and get it back."

There were hurried preparations for departure. Sheriff Ish boarded the 8 o'clock Frisco train in order to reach the scene sooner, and with a "Here's mud in yer eye," the rescuers set out for Frederick. Texas papers are of no avail in Oklahoma but Uncle Billy lets no trifles such as this deter him.

"You go in there and get the boy," he confided to the mother when she drew up before the sheriff's office at Frederick, "and I'll see that no one lays his hands on you. When she comes out, you Bake, you burn the wind for home."

Takes Child From Officer.

Inside, the youthful kidnaper reposed serenely upon the lap of a deputy sheriff. There were no cries of "Give me my che-i-l-d," nor manifestations of emotion, the mother merely walked resolutely to the officer, picked up her boy, and disappeared out the door. There was a roar from the engine, husband dashed wildly from the door and jumped on the running board of the car, there was a determined shove from those within, and he sprawled in the gutter.

"Bake" burned the breeze in earnest until he reached the Texas side and an evening of kidnapping was over. There were several squeals of appreciation, an embrace or two thrown in, but well, all that is part of a sheriff's business too, Uncle Billy says with a grin.

non kicked. Small's punts were of fair length and high.

Wichita attempted two line bucks but but could make no gain, the ball going over to Vernon on downs. Vernon was penalized 15 yards for holding. Vernon kicked to midfield. End of third quarter.

Fourth Quarter.

Wichita completed a pass which netted it 40 yards by an old trick of sending a man to lie out on the side lines. Wichita attempted a drop kick from the 18 yard line but missed. Vernon kicked to midfield. Wichita returned the kick and Vernon again punted the ball.

Vernon intercepted a forward pass and by a series of line bucks took the ball to the center of the field. Vernon kicked the ball to the 30 yard line and recovered the ball. Line plunges took the ball to Wichita's 10 yard line but Coach Morrow's men could not deliver over the final punch and the pigskin went on downs.

Wichita passed for 15 yards. Wichita kicked a long, slow ball which Small fumbled but Vernon recovered. End of quarter and game.

Raises Team's Rating

The stock of the local gridiron artists has raised considerably in the estimation of not only local supporters, but neighboring towns as well. Wichita evidently was confident of a speedy and decisive victory, and used a tremendous number of substitutes in an endeavor to wear out the visiting opponents.

Wichita excelled in the forward passing game, but Vernon attempted few attacks of this method. However the work of the locals in blocking Wichita's efforts was especially good. Both teams were practically evenly matched.

The day was oppressively hot, and doubtless accounted for the lack of spectacular playing. Attendance at

SUCCEEDS SECRETARY FALL AS NEW MEXICO SENATOR.

John R. Bursum (Republican), who has been elected United States Senator from New Mexico, to succeed Secretary of the Interior Fall. Senator Bursum is now serving out Secretary Fall's unexpired term. He was elected for the full term of 07-8 over Richard H. Hanna (Democrat) and A. A. Sena (Independent) by a majority of 7,000.

Mrs. J. T. Williams returned home Saturday after a visit with her daughter, Mrs. C. L. Green, in Wichita Falls.

Remembrance In Business

It does a man's heart good to discover that this is a far better and kindlier business world than he had thought it could be. He fairly radiates warm gratitude and good will.

Friendliness is a priceless quality in Business, a constant urge which makes sales more quickly and more surely than any amount of dry logic or argument; it cannot be neglected; it is too valuable; it must be intelligently fostered.

Just the reason our business has grown from year to year our friends remember.

ATTRIBUTES WAVE OF PROSPERITY TO FARM BUREAU

S. J. Enoch, Bureau Expert, Says Organization Has Occasioned Rise In Price Of Cotton—Outlines Purposes Of Association And Warns Against Attempts To Break Contracts.

The wave of prosperity sweeping at present over the United States is more attributable to the farm bureau than any factor in existence, S. J. Enoch, bureau expert, told a group of farmers assembled on the grounds in the rear of the library building Monday afternoon. This buoyancy has been occasioned by the system employed by the Cotton Association in marketing the crop of its members. The increased price for cotton has reflected itself through our entire economic structure bringing an immense amount of relief.

Mr. Enoch commenced his meeting on the court house steps, but an order from the presiding judge sent the gathering scurrying for other space. Court proceedings were said to be disturbed by the sound of the speaker's voice.

Organizations Distinct.

The farm bureau and the cotton associations are two distinct organizations, the speaker informed his audience. Although, of course, they are linked together by the same general purpose, the work of each is along an individual line.

In the event that present members regret having joined the farm bureau said Mr. Enoch, they must realize that now it is too late to back up. The contract entered into is absolutely binding, and cannot be broken under circumstances. Its validity has been tested in the courts, and found to be perfect.

Have Own Order

Members of the farm bureau are today receiving more advances on their cotton than previously for the entire sale of the same. Under the old system the grower brought his product to town and was forced to accept the grade put upon it by an individual who was usually interested in buying it for as low a price as possible. Today that work is performed by a bonded grader who has no other interest whatever than to establish a correct estimate of the cotton. Moreover, a government inspector is now present at the farm bureau grading centers to aid in the work.

To the insinuations of its enemies that the farm bureau is but a "flash in the pan," said the speaker, there is the compelling argument that the United States government has advanced it fifteen million dollars to carry on its work, and this policy would never have been pursued had the organization been found unsound. Texas banks, too, have advanced \$1,500,000 to the bureau as an expression of their faith in its principles.

Contract Inviolable

The farmer who thinks he can evade his contract by marketing his cotton in the name of his wife or boy is mistaken, said Mr. Enoch. Unless the boy is 21 years old, or married, his father has a right to convey a clean title to any of his property. Likewise, unless the wife has been previously signing all papers for her husband, he can dispose of property without her consent.

The argument that one's landlord will not permit marketing through the farm bureau also will not hold water, said Mr. Enoch. The manner in which the tenant disposed of his cotton did not concern the land owner before, and as long as he receives his fourth of the crop, he has no jurisdiction in the matter whatever. Farmers who face this difficulty are urged to communicate with the farm bureau at once.

Guarantees Member's Debts.

In the matter of mortgages, Mr. Enoch pointed out that unless it was directly specified that the cotton had to be marketed in the county in which it was raised, it had to be carried elsewhere. Bankers, too, cannot force the farmer to market his cotton until the mortgage falls due. When this occurs the grower can market only enough to meet his obligations.

The business of the farm bureau, asserted the expert, is to guarantee the debts of its members. It intends to make the banker more secure, to safeguard the interests of the merchant. It will be only a matter of time, he

"TAPS" FOR AMERICAN ZR-2 VICTIMS.

The Navy paid its last honors to sixteen American victims of the ZR-2 disaster, with impressive funeral services, in the Brooklyn, N. Y., Navy Yard. The photograph shows a Marine bugler blowing "Taps" over the coffin of Lieutenant-Commander Maxfield, one of the victims.

RAIN OF AID TO WHEAT FARMERS

MOISTURE COMES AT RIGHT TIME TO PROVIDE SEASON FOR LAND.

Rain of Saturday night and Sunday morning proved a benefactor for which county farmers have been anxiously waiting, that is, those who are seedling wheat. Many started this week last week and their number has been considerably swelled this week.

South of town the rainfall was reported as lighter than in the immediate vicinity of Vernon, and communities in this district may wait awhile before starting seeding in earnest. Where the moisture was sufficient, it provides season enough for the ground to get the wheat up.

Little damage to cotton is thought to have been occasioned by the rain.

said, until the first question asked the farmer applying for credit will be, "Are you a member of the farm bureau?"

Farmers Takes "Leavings."

Mr. Enoch compared the condition of the farmer with that of the merchant and pointed out the discrepancies that exist in favor of the latter. This state, he asserted, is due largely to the fact that townspeople demand the conveniences of life to which they are entitled, while the agriculturist has been satisfied with taking what he can get. No salaries for members of his family who toil in the fields, and the modest conveniences at home have been the sorry lot of the farmer, he said.

There is no stable commodity in existence with the exception of cotton that the world cannot do without, said Mr. Enoch. He proceeded to review the uses of cotton, and its indispensability to the human race. Cotton as collateral was also praised by the speaker.

Is Economic Independence.

Mr. Enoch outlined the origin and success of the California Fruit Growers' Association, and asserted the cotton association can stabilize prices in just the same manner as well as guarantee a reasonable profit to its members. Unless the farmer can offer to his boy the same opportunities that the lad can find elsewhere, said Mr. Enoch, he has no right whatever in urging him to remain on the farm.

All that is required of members in the Farm Bureau Cotton Association, the speaker pointed out, is to follow their contracts. The remainder of the work is taken care of by the organization. The new era inaugurated by the farm bureau was likened by Mr. Enoch to the American forefathers who signed a declaration of independence from England. Entering into a contract with the farm bureau is equivalent to signing a declaration of economic independence, he said.

About 100 farmers heard the speaker's eloquent address.

THINKS COUNTY SEED GOOD AS ANY

LUTHER WEBB SEES DANGER IN PURCHASE FROM OUTSIDE DISTRICTS.

Cotton seed grown in this county is equal to that produced anywhere, in the opinion of Luther Webb, local insurance dealer and formerly a cotton buyer, and there is no good reason why residents in this locality should go outside to buy it. The great danger, Mr. Webb points out, is from the degraded boll weevil, and this menace is transmitted readily through the seed.

It is a fact, he said, that much of the seed purchased without the confines of the county comes from districts much nearer the infected areas than is Wilbarger. This county has been kept remarkably free from an invasion of the pest, and in the event it once secured a foothold here, the event would be little short of calamity. Not only the farmer but those in all branches of merchandising here would suffer heavily.

Alvord As Example.

Mr. Webb mentioned having lived several years ago at Alvord when the cotton crop in that vicinity yearly averaged in the neighborhood of 7,000 to 8,000 bales. This year, he said, with the boll weevil flourishing in that district, the yield is estimated at about 100 bales.

Salesmen are continually in Vernon and the surrounding country peddling their wares, he said, and each year several carloads of seed are usually shipped in. As far as is known this seed is not carefully inspected by an authorized agent, and could easily convey the boll weevil to this section.

Wilbarger seed, said the former cotton buyer, is grown in as many varieties as can be found anywhere and is of as good quality.

ROBINSON AND BYRD PLAN TO FILE ON NEW LAND

P. H. Robinson, Jr., and Frank Byrd left today for Los Angeles, New Mexico, to look over government land recently opened up to ex-servicemen. The local prospectors intend filing claims for a section apiece. According to a ruling of the government, the time spent in the service is deducted from that necessary to prove up the land, and it will be necessary for Robinson to spend but seven months on the section to own it. This minimum is required from every one, as well as \$500 in improvements.

Others in Vernon are said to be contemplating taking up some of the newly opened land.

New Teacher for High School.

Miss Sallie Felman of Tyler, a graduate of the University of Texas, will come to Vernon to have charge of commercial courses and classes in history. She replaces Miss Jessie Hickman who has gone to Canyon as an assistant in Northwest Texas Normal.

COUNTY ENTRANTS GAIN HONORS AT CHILDRESS FAIR

Bourland and Sharp Take First Place With Transmission, And Joe Collins Reaps Practically All Honors In Shorthorn Class—Hog Show Said To Be Of Exceptional Quality.

Wilbarger county entrants in the Childress Fair last week, A. M. Bourland and Joe Collins, won distinction for themselves and the section they represented by exhibiting animals that were conceded by judges to be the best on display. Transmission, formerly Long Orange, Jr., the now famous Pol- and China male, owned by Bourland, Sharp and Alexander took first place in the aged boar class, and Bourland and Sharp also won premier honors with a yearling sow.

Mr. Collins garnered practically all the honors in the shorthorn class, and took almost all the grand championships. Victories for the local exhibitors were gained against a field of intense competition. Transmission was taken from Childress to Oklahoma City to be exhibited in the State Fair at that place and from thence will be taken to Dallas for the Texas State Fair from October 8-23. Mr. Collins will take the best individuals in his show herd to the Dallas Fair next month.

Hog Show Extraordinary.

The hog show at the Childress Fair was said by Wilbarger county Agent to outrival that of the majority of State fairs. Childress and vicinity is noted for a wealth of hog fanciers and breeders, who produce exceptionally fine specimens for show purposes. Exhibits came from all parts of West Texas, and according to the judge at the Fair, he had seen no finer display of hogs outside the National Swine Show at Chicago. There were 250 hogs entered in the Childress Fair.

The agricultural exhibit at the Childress Fair was also exceptional. It is said that 42,000 persons attended the Fair during its session of four days, and 16,000 were in attendance during one day. Horse races and rodeo combined to insure entertainment during the exhibition.

CHINESE LAUNDRYMEN RETURN TO HOME LAND.

Hon Long, proprietor of the local Sam Lee Laundry, and his fellow worker Hom Fen left this morning for California where they will sail in about a month for their home in Canton, China. Both have families in the Orient. Their stay in the home land will be indefinite, and according to Hom Long, his wife might "one let me come back."

The travelers will remain in California for about a month, attending to the matter of passports and selection of the ship upon which they will travel. They will be on the Pacific for twenty eight days.

Missionary to Brazil Coming.

Dr. A. B. Deter, Missionary to Brazil, will fill the pulpit of the First Baptist Church next Sunday at both hours. Dr. Deter has been missionary to Brazil from the Southern Baptist convention for about twenty years, and is home now on a furlough. He is said to be an interesting, informing, inspirational speaker and it will be a rare opportunity, friends say, to learn of the religious situation in the Republic in South America which is larger than the United States.

March Pullet Sits in September

J. A. Gilliland, local dairyman, is possessor of a prize sitting hen. At least, that is the way Mr. Gilliland feels. About March 15th one of his birds died came off with a brood of chicks. The downy little fellows seemed vigorous, but gave no evidence of unusual qualities. In August one of the pullets started laying. She disappeared, and recently came in with a brood of her own, although she is only six months old. "What kind of chicken is she?" Mr. Gilliland was asked. "Just chicken," he replied.

Conference At Tolbert Sunday

Rev. R. V. Tooley announces his Fourth Quarterly Conference at Tolbert to convene at 2 o'clock Saturday. Rev. W. P. Garlin, presiding elder, will preach at 11 o'clock Saturday morning.

AMERICAN RELIEF WORKERS IN RUSSIA.

Workers of the American Relief Administration, aboard their relief train, entering Soviet Russia at the Latvian frontier. This is one of the first photos to arrive here showing American relief work in famine-stricken Russia.

PLAN DISARMAMENT CELEBRATION HERE

LOCAL UNION IN CHARGE OF PARADE AND ADDRESS ON NOVEMBER 11.

Roy E. Davis, local contractor, has received orders from headquarters of his union, B. M. and P. L. U., Indianapolis, to make preparations for a demonstration to be conducted in Vernon November 11 in behalf of disarmament. The same orders have gone out to every city in which a local is in existence.

The demonstration here, Mr. Davis said, will consist of a parade and a speech from a Dallas orator. Every citizen is invited to participate in the parade, and can ride or walk as he chooses.

Further details concerning the demonstration will be announced later through The Record.

LOCAL YOUNG PERSONS WED.

Marriage of Miss Beatrice Ladd and Roy Thompson Occurs Last Night.

Miss Beatrice Ladd, daughter of Mrs. J. W. Ladd of West Wilbarger street, and Roy Thompson, son of Mr. and Mrs. J. D. Thompson living about two miles west of Vernon, were married last night at 7:30 at the home of Rev. E. L. Moore, Presbyterian minister. Both are well known here, having been born and reared in this county. There were no attendants at the wedding. The ring ceremony was used.

The bride is a member of a family known throughout Wilbarger, and received her education in Vernon schools. She is a graduate of Holcomb Training School.

Roy Thompson also attended local schools, and of late has been associated in business with his brother, Herb, at the General Auto Supply Company on East Wilbarger street. He will continue there.

Patterson Awarded Damages.

E. W. Patterson et al in a suit against the K. C. M. and O. Railway Company in the district court were awarded damages Saturday to the extent of \$700 on account of fire on the plaintiff's land occasioned by a locomotive on the railroad. Patterson owns sections 17, 18, and 19 in block 11, and sparks from the locomotive are said to have burned over 1,000 acres, causing \$5,000 damages to the grass, and \$2,500 to the premises.

Ferrell's Condition Unsatisfactory.

Bob Ferrell, who is in Dallas suffering from a cut in his eye, is not progressing satisfactorily, according to a letter received here by friends this morning. Ferrell experienced a hemorrhage in his eye recently, and attending physicians have grave doubts as to whether or not it can be saved.

Girl to Mr. and Mrs. Self.

A baby girl was born to Mr. and Mrs. D. W. Self of West Olive Street Saturday, September 24.

SEES BUT ONE WAY TO FURNISH COUNTY WITH GOOD ROADS

Bob Price Thinks Bond Issue Affords Readiest Solution To Proposition—Points Out The Growth In Amount Of Travel—Wants Better Highways While "We're Still Living."

"We have to have good roads all right, and as far as I can see there is only one way to get them," is the observation of Bob Price, well-known Wilbarger farmer, living in the eastern portion of the county. Mr. Price can see no better method of obtaining the goal in view than the issue of road bonds for the purpose of improving the highways.

Foard county and Wichita county are undertaking large improvement ventures, he points out, and Wilbarger cannot expect residents of those communities to be satisfied with "chuck" holes and sand in this vicinity when they travel back and forth.

Wants While Living.

Mr. Price compared the situation with an occurrence of an acquaintance who would drink no water except that from a well belonging to a relative nearby. One night he awoke at 2 o'clock, and started to dress. In reply to his wife's question, he stated that he was going over to the well for a drink. "But wait until morning," she remonstrated with him.

"Nope," he said calmly, "I want it while I'm living."

The proposition concerning the roads is very similar, said Mr. Price. We need them "while we're living" and there is no point in putting them off until a future date. The farmer is of the opinion that there are but a few persons in the county who are against the project.

Travel Heavier.

In response to the argument outlined by some that travel flourished in the olden days without concrete roads and improvements, Mr. Price points out that there is more freighting between his vicinity, Rayland, and Vernon in a week now than in an entire fall several years ago. Coal and cotton demand a tremendous amount of hauling, he said. In former years the farmer could burn wood, but this supply has now been exhausted.

A road leading from Mr. Price's home to Rayland is a good example of what neglect will do, he said. Ten years ago this was considered as fine a stretch as any in the county. No improvements have been made upon it, and as a result it is practically impassable.

JURY DECREE CAR NEED NOT BE PAID FOR IN FULL

In a suit brought in the district court by Jim Jennings against Jack Orr for full payment on a car sold to the latter last year, the debt amounting to approximately \$2,400, the jury decided that Orr must pay \$675 with interest, and the costs in the case. About \$1,100 had already been paid in on the machine by Orr.

According to testimony submitted by the defense, Orr was sold a defective car. When he refused full payment, suit was brought by the dealer.

May Again Drill Noble Well.

R. Stewart, head driller on the Noble well, has returned from Denver and intimated that the company would again commence operation on its holdings on the Judd farm. Drilling was suspended more than a month ago at a depth of 3,000 feet in order that more finances might be raised. Considerable local money is invested in the Noble well.

Many Visit Childress Fair.

County Agent C. R. Jones and Mr. and Mrs. A. M. Bourland spent Friday at the Childress Fair. Mr. Bourland says they have a big show in Childress, and it is wonderfully well patronized. The exhibits were A-L. Childress people turn out better than do our folks to the County Fair, in the opinion of the Vernon visitors.

City Extends Water Service.

City workmen are extending a water pipe several hundred feet beyond the city limits on West Wilbarger street. The new line will supply houses in the vicinity, and will be utilized when more residences are conducted on the vacant lots along the thoroughfare.

AMERICANS BRING RELIEF TO STARVING RUSSIANS.

Refugees from the famine-stricken areas of Soviet Russia waiting in line in front of the first of the American Relief Administration's food stations, in Moscow, for their daily rations. This is one of the first photos to reach this country showing American relief activities in Soviet Russia.

JOHN BURGESS' RESIDENCE BURNS THIS AFTERNOON

The residence of John Burgess, near the corner of West Maidea and Deaf Smith streets, completely burned this afternoon shortly after 1 o'clock. The blaze was occasioned in some unknown manner by a small girl playing inside the house while her mother was busy outside.

Three small children are in the Burgess family, and one was rescued from the flames just in time by a bystander. The flames had gained tremendous headway by the time the department reached the scene. The dwelling was a small, two-room affair.

Cotton Market Grows Stronger.

Vernon's cotton market opened somewhat weakly this morning at 20 1/4 cents, but at noon had advanced to 21 cents. Cotton is again coming in quantity to the gins after the rain of last week-end.

Automobile Case in Court.

The case of Vernon Daniel et al vs. The Automobile Insurance Company of Hartford, Conn., is being tried in district court today.

We have a full line of school tablets. A stick of candy with each purchase. See the bicycle in our store. Star Cash Grocery, 621 1/2 Street, etc.

Dr. O. W. Wilson, Eye, Ear, Nose and Throat Specialist of Wichita Falls, will be in Vernon next Sunday, October 2—office at The Standifer Hospital, 74-21c Adv.

Let us fix your old harness and saddle; prices right and quality service. Swartwood & Co. Itc.

Mr. and Mrs. W. T. Terry and baby were in Wichita Falls over the week-end. They witnessed the football game between Wichita Falls and Vernon.

Chandler Carraway spent the week-end with his family in Vernon.

D. E. Butler of Floydada was the guest Sunday of Miss Cleo Bowers. Mr. Butler was on his way to Baylor University where he has entered his senior year.

Mrs. Jordan Seriously Ill.

Mrs. M. E. Jordan, 77 years old, of West Wilbarger street, has been seriously ill since last week with heart trouble, and her life has been despaired of for some time. Ropes were stretched across the street yesterday to prevent traffic from passing the house, but were removed this morning at the sick woman's request. She has been in bad health for some time. Her condition this morning was somewhat improved.

Lubbock Paper Has 120 Pages.

The Record is in receipt of a copy of The Lubbock Avalanche containing 120 pages. This is an industrial and fair number. It contains 8 page sections on Abernathy, Crosbyton, and other municipalities on the South Plains. It is a remarkably complete story of that section, and is liberally patronized.

Mr. and Mrs. Sylvester Minger returned last week from a lengthy visit in Dallas.

Embezzlement Charge Dismissed.

A charge of embezzlement against John Gaut was dismissed last week-end by the district attorney.

Judd Builds Residence.

R. B. Judd is building a modern residence one block west of the stand-pipe. It will be constructed of brick.

Shopmade harness at greatly reduced prices at Swartwood & Company's Itc.

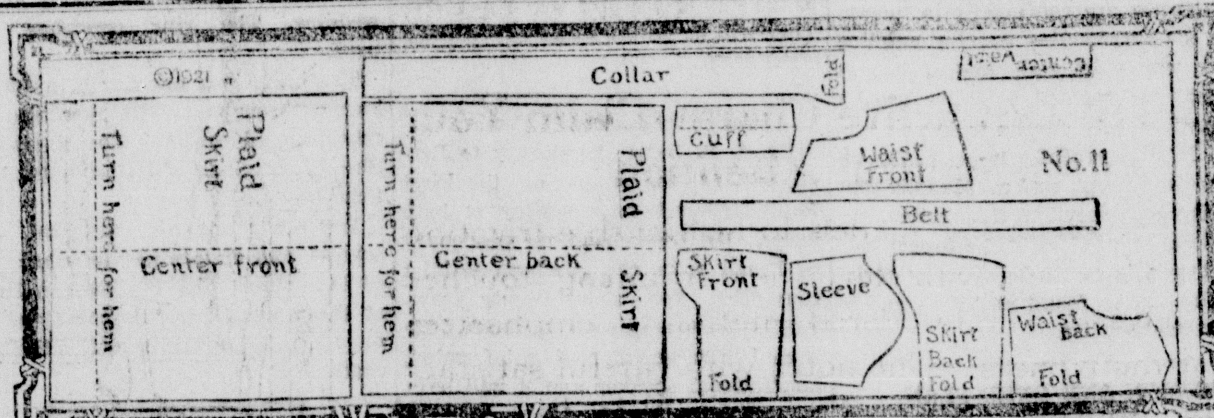

Mr. and Mrs. Robert Bomar of Crowell were in Vernon yesterday.

Shopmade boots guaranteed for service, at Swartwood & Co. Itc.

Evans Mason left Sunday for Austin where he will attend the State University.

R. D. L. Killough went to Amarillo Friday on legal business.

Mr. and Mrs. O. T. Youngblood and three children of Paducah spent the week-end with their parents, Mr. and Mrs. T. J. Youngblood, Mrs. T. J. Youngblood, and daughter, Miss Oleta, motored to Quanah Friday to meet their guests.

For Six Dollars Any Girl Can Make This Gingham Dress of Marion Davies'.

An All Round Bright Gingham Dress for Summer

By MARION DAVIES

Film Star of "The Restless Sex," "Daring Dames," etc.

What do you like better for real summer wear than a bright, crisp gingham dress? Nothing, I'll warrant, and I feel the same way about it. I like to call this my garden dress, but I wear it anywhere because it is so cool and comfortable, and piquante. I chose the reddish Scotch plaid on a background of white. I like the scarf effect of the collar and the plain bodice.

Did you ever try putting rings on the end of a scarf? It's great fun and this was my own idea, of which, I must confess, I am a little proud. I hemstitched the ends first and then found these rings that I had used on another dress several years ago. It is a good idea, I have found, to keep ornaments of that kind. You never know when you may want them. I put four on the belt, too.

You can make the exact replica of this dress for \$10 and even less. Follow the pattern carefully and I am sure you will find this dress as easy to make as I did. It took 3 1/2 yards of the plaid, 36 inches wide and 1 1/2 yards of the white of the same width. I used batiste for the white, but linen would be good or pique. I made the pattern on the 1-16 reduction scale for size 36. If there is anything you would like to ask me about it, address me at Cosmopolitan Productions, 127th Street at Second Avenue, New York City.

MORE'S THEATRE PROGRAM
(Continuous From Noon Till Midnight)

NOW PLAYING—TO-DAY—TUESDAY

The Noted and Talked of Picture—"SENTIMENTAL TOMMY" featuring Greth Hughes, Mabel Tulliaferro and May McAvoy.—(fascinating story of Sentimental Youth)
Kineto Review—"BABY LORD" Comedy "HOME RULE"

WEDNESDAY—Gladys Walton in "THE MAN TAMER"
(Eye opening story of Circus-life, the girl who couldn't be Bluffed by Men of Lions)
SUNSHINE COMEDY—"MERRY JAIL BIRDS"

THURSDAY—BURT LYTELE in "THE MAN WHO?"
(Romance of a Barefaced, Barefoot Bid for Fame)
VANITY Comedy—"HIS FOUR FATHERS"

COMING FRIDAY—TOM MIX in "BIG TIME ROUND UP"

At More's Theater

Today—"Sentimental Tommy."

Grizel has never been recognized as decent, because of the talent that lies over her mother, when Tommy Sandys moves to Thrums, her native village. He becomes her champion when he finds the other children taming her. During the years that follows Tommy becomes famous and returns to the village of Thrums to find Grizel, now a beautiful girl of 18, in love with him. He only pretends to be in love with her and makes plans to marry her; but she discovers his true feeling in the matter and refuses to go through with the wedding. He goes away then for a long time; but when Grizel has a feeling that he is in need of her she follows him to Switzerland. Here she finds him making love to some one else and she returns home broken hearted. He follows her there and marries her and sees her nursed back to health and sanity.

Wednesday, Bert Lytell in "The Man Who."

Bedford Mills was only a bank clerk and the girl he loved would not marry him because she wanted a man who did things. So Bedford decided to be the "man!" The thing he decided upon was to break the shoe trust and he started out by going barefooted. A host of people followed his example; and he got a great deal of free publicity; but the girl scorned him. It didn't matter for long, however, because he fell in love again and this time with the daughter of the shoe trust.

Thursday, Gladys Walton in "The Man Tamer."

Kitty Harrigan's father, a lion tamer, is maimed by one of his lions, leaving her to do the act alone, and to fight off the advances of Delmar, the circus manager, and Bradley Caldwell, a profligate young millionaire, who is enamored of her. She quits the circus to get rid of Delmar, but the other man continues to pester her. His father, seeing the possibilities in the girl, hires her to tame his wild son. This she does and the two proceed to fall in love. They then face the older man with misgivings but he admits he has schemed for just this result.

At The Pictorium.

Today, "A Child for Sale."

This unusual picture features Gladys Leslie, Creighton Hale, and the two children, Bobby Connelly and Ruth Sullivan. It puts forth in dramatic form the injustices practiced by unscrupulous landlords in crowded districts in the city.

Wednesday, Constance Talmadge in "The Love Expert."

Babs is sent home from boarding school because she persists in carrying on her fanciful love researches instead of studying her lessons. Arrived there

FORMER GOVERNOR OF INDIANA
FAMINE RELIEF WORKER

James P. Goodrich, former Governor of Indiana, who sailed to Europe to join the American Relief Administration in the famine-stricken areas of Russia.

Mr. Goodrich will be attached to the staff of Colonel William Haskell, director of the relief work.

she is just as bad as ever and her father sends her to Boston to visit a maiden aunt, who for six years has been engaged to Jim Winthrop. A wedding is still remote, however, because Jim has two sisters and an elderly aunt to care for. Babs decided that something had to be done and set out to do it by means of a fake telegram, which resulted in her going to Palm Beach. Later comes word of the aunt's marriage to the professor. This news does not break the business Jim's heart because the young "love expert" is there applying one of his remedies.

Thursday, Neal Hart in "Black Sheep."
This drama is based on the bloody warfare that was waged on the western plains during the last nineties between the cattle-men and the sheep-herders. It is adapted from "Bad Man, Black Sheep" which appeared in Short Story Magazine.

Marriage Licenses issued.

Marriage licenses have been issued to the following: Charles Priddy and Miss Irene Davis of Odell, September 16; R. L. Smithson and Miss Mae Lane of Vernon, September 16; J. C. Chisum and Miss Jettie Belle Sorrell of near Harrold, September 16; C. S. Dunn and Miss Merle Sheldon of Electra, September 19; Robert L. Bomar of Crowell and Miss Ruby Spears of Vernon, September 20; Jodie D. Smith and Miss Willa Elizabeth Calvert of Electra, September 23; J. C. Robinson and Miss Grace Frazer of Vernon, September 24; Gilbert Yarbrough and Miss Stella Kinkeloe, September 24; Roy B. Thompson and Miss Beatrice Ladd, September 26.

Everything in leather goods at Swartwood & Co. Adv. Itc.

TEXAS A MANUFACTURING STATE

Judge D. F. Goss of Seymour insists that Texas mills should manufacture Texas cotton and woolen goods; Texas tanners should tan Texas hides and Texas shoe factories should turn out footwear for Texas, New Mexico, and Pan-America. Many other forward-looking Texans are voicing the same sentiments.

In fact it is difficult to understand why raw material produced on Texas farms and ranches should be sent to New England for manufacture and then sent back to be sold to the producers of raw material. Just now Texas is not nearly self-supporting in many lines. Texas money is sent away to buy meat and butter, fruit and vegetables, flour and nuts. All of these we might produce on our own acres.

Making Texas self-supporting in all of these lines means millions of dollars to Texas farmers and stockmen to Texas manufacturers and merchants. Texas has water power in the south-west, fuel in many sections, and an unlimited supply of raw material. Surely Texas has the men to make realities of all of these potentialities!

ENCOURAGE THE HOME TEAM.

Vernon's High School football team has a right to feel elated over the showing made Saturday against Wichita Falls. A nothing to nothing score should give the boys much to hope for.

And the winning of a high school football championship is no small matter! This is no less true of the town than for the boys. Grown-ups have a pardonable pride in winners, nor is their pride lessened because the winners are of their own flesh and blood.

Vernon would be advertised no little by a championship football team. Such a finale to the present season would tend mightily to enthrall the boys with going to school especially so since they must make their grades to play on the team.

These are two big reasons why the Record hopes everyone will pull hard for the home team this fall.

WHY NOT PROSPEROUS

With 5,644 bales of cotton already ginned, why should not Wilbarger county take on an air of prosperity? At 20c a pound this figures well above the half million mark for cotton and seed. Of course, the farmers are feeling better, and when the farmers smile, it is almost impossible for the rest of us to look glum.

The rapidity with which cotton is coming in this year is remarkable. Nineteen hundred nineteen was a bumper crop, and yet at this time only about 375 bales had been banded by the public weigher in Vernon.

It is reasonably safe to estimate that the Wilbarger county farmer will receive approximately \$1,500,000 this year from his cotton crop. Half that much was realized from the wheat harvest. Surely it is time to

chase "Old Man Gloom" out of the county, and while chasing "Old Man Gloom" why not lay plans for a three-quarter million dollar poultry crop another year?

THE WORLD'S LARGEST SUNDAY SCHOOL

Fort Worth, Texas, boasts the largest Sunday school in the world. The first Sunday in September 5,263 men, women, and children were present at Sunday school in the First Baptist Church of that city. Twelve years ago the average attendance was fewer than 300.

The Rev. Frank Norris is pastor. All tracts, leaflets, or Bible helps put out by the Publishing Houses have been put aside; and each Sunday morning every class in every department studies the same chapter of the Bible.

You will see men in their work clothes and women in calico at Mr. Norris's church," a recent visitor says. "And they feel at home." This same visitor says that the pastor is strangely old-fashioned, highly doctrinal—but, withal, he stays close to the Bible.

No higher tribute to the Bible and Christianity can be paid than that is being paid daily by the women and men who are faithful attendants on the First Baptist Church in Fort Worth.

Current Comment

THE RUSH TO COLLEGE

The extent to which the young people of this country have acquired faith in the value of higher education may be gathered from college enrollments which are now being made public. Smaller colleges as well as universities which have been heard from so far report almost incredible increases.

Despite some remarkable records in the past, it is certain that the rush to college this year will be greater than ever before. Even increased tuition and living costs in college towns as a result of this crowding are no bar to the great crowd clamoring for a college education. In the schools in which it was decided to resort to stiffer entrance examinations to keep down the enrollments even this has

The Story of Our States

By JONATHAN BRACE
 XI.—NEW YORK

THE STORY of New York should rightly begin with 1524, eighty-five years before Henry Hudson's voyage in his little boat, the Half Moon, up the river which now bears his name. For at that early date an Italian navigator, Verrazano, exploring for France, sailed into New York bay. This first visit to New York made little stir and was soon forgotten, and it was Hudson's rediscovery which tempted the Dutch to send over colonists and obtain for the Dutch West India company a monopoly of the Dutch fur trade in America. The new colony which was started in 1623 called its territory New Netherlands, after its mother country, and their principal city New Amsterdam. It is interesting to reflect that Manhattan island, which is now New York city, was purchased from the Indians for \$24 worth of beads and ribbons. Even in its earliest days the settlement on Manhattan Island was cosmopolitan. In 1643 it is reported that eighteen different languages were spoken there. In 1664 the English captured New Netherlands, and King Charles II presented the colony to his brother, the duke of York, who was later King James II, and its name was then changed to New York.

New York played a leading part in the formation of the United States. It was Alexander Hamilton who was New York's representative in framing the Constitution and it was New York city which was selected as the first capital of the new Union, where Washington was inaugurated the first president. Ever since the Empire state, as New York is sometimes called, has held the deciding voice in presidential elections. Though its size is only 49,204 square miles, not quite half way in the list of states according to area, its great population gives New York forty-five presidential electors, the largest number of any of the states.

(© by McClure Newspaper Syndicate.)

UNIVERSITY PROFESSOR IS NEW MINISTER TO DENMARK

Dr. John Dyneley Prince, professor of languages at Columbia University, who has been nominated by President Harding as Minister to Denmark from the United States, is president of the Civil Service Commission of New Jersey. He lives at Ringwood manor and is a close friend of United States Senator Frelinghuysen, who recommended him. Dr. Prince was a member of the New Jersey Assembly in 1906-8 and Speaker in 1909. He was afterward leader and president of the State Senate.

failed. The desire for higher education seems to overcome all obstacles.

For obvious reasons many educators had expected, if not a decreased, at least no greatly increased enrollment; so that they are now at a loss to explain this unexpected phenomenon. Others see in it nothing more than the fact that public interest in education is being taken up at the point where it stopped when we went to war. The demand for higher education, however strong it may seem now, is no greater than it would have been normally had there been no war.

A good share of the increased college enrollment is due to the fact that the value of a college education is becoming more widely known. No doubt the raising of the standards of education even in the high schools has much to do with this rush to college. Many parents who a decade ago were satisfied with a high school diploma for their children are no longer satisfied with this minimum. They are applying to education the slogan so familiar in the field of business. "The best is the cheapest in the long run." Certainly our present rush to college admits of no other interpretation.—Albuquerque Journal.

GIVES CHILDREN PICNIC.

Those Who Attended Nutrition Class Regularly Are Taken Out On Outing By Miss Eilman.

Miss Rose Eilman, public health nurse for Wilbarger county, took for a picnic in Allingham park Saturday afternoon the children in her nutrition class who have attended regularly during the three months course. Those enjoying the outing were Charles, James and Ruth Kell Lutz, Guy and Dorothy Wheeler, Glen and Annabelle Robertson, Harold and Elmer, Jr., Wright, Pauline and Jack Cain, Pater Harold, Catherine Easterling, Bryan Devaughn, Frances Brown, Holmes Dollarhide, Betty Mae Brown, Nina Mae and Annette Smith and Zymena Trout. Four mothers were present. They were Mrs. J. E. Lutz, Mrs. Guy Cain, Mrs. E. G. Wright and Mrs. G. H. Wheeler. The little tots were taken out at 4 o'clock and had their supper and returned before dark.

A total of 73 children were enrolled in the nutrition class during the three months that Miss Eilman conducted it. All of this number have gained weight and many of them have gained five and six pounds, in spite of the excessive heat of the summer, a factor against which it has been hard to compete. Miss Eilman says she is very proud of the improvements made by the children in the class. No other will be started immediately but the Red Cross nurse hopes that the little folks will continue to come every Saturday to be weighed.

One of the greatest benefits which have been derived from the nutrition class, Miss Eilman says, is the children's learning to eat the proper foods and to take the required amount each day.

Grady Harris of Mobetie passed through Vernon last week on his way to Texas A. and M. College where he will enter his senior year. He visited his aunt, Mrs. J. B. White.

CROWELL MAN WANTS ROADS

W. E. Kinsey Says Conditions Are Worse Now Than They Were In Pioneer Days.

Conditions of the roads are more deplorable now than in pioneer days, according to W. E. Kinsey of the Foard County News. Mr. Kinsey was a Vernon visitor Saturday.

"For the most part, Foard county has better road-making material than you have," Mr. Kinsey told a reporter. "However, we have a big problem making it possible for the farmer to get to town without undue loss of time when he wants to market his crops."

"As I see it the only thing Wilbarger county can do is to pave her highways. This is especially true in the sand. Without this people are paying a big price for the privilege of riding over the almost impassible roads. It would cost a great deal less, in the end, to pave."

A VERNON MAN'S EXPERIENCE.

Can you doubt the evidence of this Vernon citizen?

You can verify Vernon endorsement. Read this:

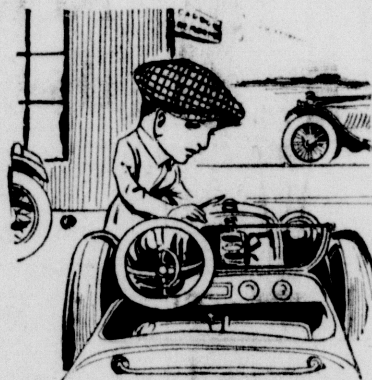

J. J. Manis, owns Auto Accessory store, North Bowie St., Vernon, says "Some years ago my back and kidneys were in bad shape caused from a strain. My back was so bad I could hardly turn over in bed. There was a heavy pain across my back and hips. My back was so sore and lame at night I couldn't sleep and mornings when I first got up I could hardly straighten. My kidneys were in awful shape and were inflamed, irregular and weak in action. The kidney secretions contained a sediment and were painful in passage. I used different kidney remedies but none of them did me any good. I finally bought Doan's Kidney Pills at Pendleton & Sons Drug Co. and two boxes of this medicine cured me of every symptom of kidney complaint. The cure Doan's Kidney Pills gave me has been permanent."

Save Pennies—Waste Dollars

Some users of printing save pennies by getting inferior work and lose dollars through lack of advertising value in the work they get. Printers as a rule charge very reasonable prices, for none of them get rich although nearly all of them work hard.

Moral: Give your printing to a good printer and save money.

Our Printing Is Unexcelled

New Type, Latest Style Faces

UNCLE SAM HAS DEVOTED YEARS TO STUDY OF POULTRY PROBLEMS

Poultryman May Work Out Best Methods for Himself, But It Costs Money and He Has Already Paid the Government for Doing It—Information Free.

Poultry raisers, whether engaging in the business on a large scale or owning only a small flock, will find it to their interest to get in touch with the United States Department of Agriculture when in doubt about the best methods to follow.

Visitors in Washington wishing to consult the department's poultry specialists are invited to call at their office and also to visit their experimental farm. The work in poultry feeding and breeding is conducted by the Animal Husbandry Division and that relating to diseases by the Pathological Division of the Bureau of Animal Industry.

Many bulletins are available dealing with various phases of poultry raising any of which may be had upon application to the Division of Publications, United States Department of Agriculture. In addition to the regular bulletins there are a number prepared especially for boys' and girls' clubs and persons beginning the poultry business without much knowledge of its requirements. A list of these may be had upon application to the same division.

Various Rations Tested

At the Department's experiment farm at Beltsville, Md., various rations are being fed to hens to study their effect. For example, in one experiment the hen balances her own ration; in another fish meal is included; in another hot wheat or wheat products are used; while cottonseed meal replaces a part of the beef scrap in another. Comparisons are also made of the effect of the same rations on hens of the egg breeds as compared with those of the general-purpose breeds. Only simple rations of widely available feeds are used. A large amount of data has been obtained on the feed cost of producing eggs.

Hens in considerable numbers are

being trap-nested, and matings made to determine the possibilities of different methods of breeding in increasing or fixing egg production. Matings to fix certain types or characters desired in the flocks are also made. No birds are retained in flock which have a disqualification that would bar them under the rules of the American Standard of Perfection. The results being obtained indicate that it is possible to combine utility and standard breeding to a practical degree. Any of this information is available for the persons requesting and the department is eager to have it used widely.

Boys' and Girls' poultry clubs have wide influence in interesting the children in raising chickens, and in teaching them and their parents the best method of handling poultry for the production of eggs and meat. The department cooperates with the State agricultural college in forming these clubs.

The department's activities include every branch of poultry raising, and this includes turkeys, ducks, guinea fowl, pigeons, and even ostriches. A small flock of ostriches is maintained at Glendale, Ariz., where their feeding, breeding, and management are being carefully studied. The production of ostrich feathers with special reference to their quality and to the eliminating of certain defects common to American feathers is receiving attention.

Getting Away From Bad Eggs.

The department is giving special attention to improving the quality of market eggs with a view to overcoming losses estimated at many millions of dollars annually. These studies cover the production of eggs on the farm and their handling from the farm to the country store. The production of infertile eggs, which are far superior in keeping qualities to fertile eggs, is being advocated.

VERNON BATTLES WICHITA TEAM TO TIE IN FIRST GAME

Local Lads Divide Honors Evenly In Football Contest Saturday—Home Team Makes Desperate Effort To Win By Use of Substitutes—Vernon Line Holds Splendidly.

Displaying a defensive that Wichita Falls at all stages of the game was practically unable to penetrate, and with an offensive of reasonably strong calibre, Vernon high school fought the lads from the oil city to a standstill last Saturday, the count standing 0 to 0 at the end of the game. There was little to choose favoring the work of either eleven, and the game was remarkably free from spectacular work of any sort.

Vernon's line proved the surprise of the day, the heavy Wichita backs failing utterly to make advances of any considerable length from tackle to tackle. Forward passes netted the only appreciable gain made by the home team. Vernon practically abandoned the aerial method of attack, and relied chiefly on straight football and kicking.

Line Plays Well
Small and Bramblett performed well in the backfield, and Colter showed up especially well in the line. The latter went down under the punts well, and broke through the opposing forwards repeatedly. There was but a shade of difference, however, between his playing and that exhibited by his mates in the line.

First Quarter.
Vernon kicked off at 4:15, Wichita returning about eight yards. Wichita kicked and Small returned a short distance. Small tried both ends for no gains, and kicked. Wichita blocked the ball and recovered the ball.

Wichita bucked the line but Vernon's defence proved impregnable. Wichita tried a forward pass which was incomplete. Wichita fumbled and lost ten yards. Another forward pass was incomplete and Wichita kicked to Vernon's 35 yard line. Small lost ten yards on an attempted run and kicked. Wichita passed for twenty yards. End of first quarter.

Second Quarter.
Vernon kicked and Wichita advanced the ball to the local's 20 yard line. Vernon's line held, and the ball went over on downs. Vernon kicked to midfield.

Wichita completed a pass for 12 yards and prepared for a drop kick. Goal was missed and it was Vernon's ball on their 20 yard line. Small's work at breaking up passes and tackling runners around end was one of the features of Vernon's defense. End of first half.

Third Quarter.
Wichita kicked off to Vernon's 10 yard line. Vernon intercepted a forward pass on Wichita's 25 yard line. Wichita then intercepted a Vernon pass on its 15 yard line.
Wichita kicked to Bramblett who made a pretty return. Vernon missed the snap back, and Wichita recovered the ball. Wichita bucked the line and attempted several forward passes, one of which Vernon intercepted. Vernon

MISS CHRISTMAN SITS IN UNEMPLOYMENT CONFERENCE

Miss Elizabeth Christman, appointed by Secretary of Commerce Hoover to confer with others of well-known ability on the unemployment crisis, has had dealing with industrial problems. Miss Christman represents organized labor. She is secretary of the International Glove Workers' Union and secretary-treasurer of the National Women's Trade Union League.

Some of the refugees may be seen preparing the food given them by the American workers. This is one of the first photos to arrive in the United States showing our relief work in Russia.

KIDNAPPED TWICE IN ONE EVENING; BOY IS HOME AGAIN!

To be kidnaped and spirited away from home before one can say "Jack Robinson" is sufficient experience if it happens but once in the life of a 7-year-old boy, but to be re-kidnaped the very same evening and whisked away in an automobile is really carrying the matter too far. At least, this is the opinion of a certain little youngster of that certain same age who is the son of a certain trained nurse in Vernon.

The lad was taken from his mother Friday night by his father when the latter came ostensibly to a local hospital to talk to the child. It was simply a matter of stooping, gathering the child swiftly in his arms from the porch, and running to a service car waiting nearby. Car, husband, and child disappeared in the night leaving a distraught woman wringing her hands and imploring some one to help her.

Sheriff Takes Hand.
Sheriffs have a knack of serving in every emergency from a murder to conducting a lost-found column, and Uncle Billy Ish is no exception to the rule. Hearing the mother's story, he quickly communicated with nearby towns, and ere long determined that a man answering the description of the kidnaper departed from Frederick, Okla., in the direction of Vernon a few hours previously. It was discovered that the designing one abandoned his car at the Frisco bridge, walked over to the Texas side, and engaged the services of another automobile to bring him to town.

Standing in the sheriff's office were non kicked. Small's punts were of fair length and high.

Wichita attempted two line bucks but but could make no gain, the ball going over to Vernon on downs. Vernon was penalized 15 yards for holding. Vernon kicked to midfield. End of third quarter.

Fourth Quarter.
Wichita completed a pass which netted it 40 yards by an old trick of sending a man to lie out on the side lines. Wichita attempted a drop kick from the 18 yard line but missed. Vernon kicked to midfield. Wichita returned the kick and Vernon again punted the ball.

Vernon intercepted a forward pass and by a series of line bucks took the ball to the center of the field. Vernon kicked the ball to the 30 yard line and recovered the ball. Line plunges took the ball to Wichita's 10 yard line but Coach Morrow's men could not deliver over the final punch and the pigskin went on downs.

Wichita passed for 15 yards. Wichita kicked a long, slow ball which Small fumbled but Vernon recovered. End of quarter and game.

Raises Team's Rating
The stock of the local gridiron artists has raised considerably in the estimation of not only local supporters, but neighboring towns as well. Wichita evidently was confident of a speedy and decisive victory, and used a tremendous number of substitutes in an endeavor to wear out the visiting opponents.

Wichita excelled in the forward passing game, but Vernon attempted few attacks of this method. However the work of the locals in blocking Wichita's efforts was especially good. Both teams were practically evenly matched.

The day was oppressively hot, and doubtless accounted for the lack of spectacular playing. Attendance at

Frank O'Neal, deputy, and S. H. Baker, garage man.

Donates Use of Car.
"I'll donate the services of my new car," said Baker, when it was found that the husband had returned to Frederick with the boy, "and we'll go over and get it back."

There were hurried preparations for departure. Sheriff Ish boarded the 8 o'clock Frisco train in order to reach the scene sooner, and with a "Here's mud in yer eye," the rescuers set out for Frederick. Texas papers are of no avail in Oklahoma but Uncle Billy lets no trifles such as this deter him. "You go in there and get the boy," he confided to the mother when she drew up before the sheriff's office at Frederick, "and I'll see that no one lays his hands on you. When she comes out, you Baker, you burn the wind for home."

Takes Child From Officer.
Inside, the youthful kidnaped reposed serenely upon the lap of a deputy sheriff. There were no cries of "Give me my child," nor manifestations of emotion, the mother merely walked resolutely to the officer, picked up her boy, and disappeared out the door. There was a roar from the engine, husband dashed wildly from the door and jumped on the running board of the car—there was a determined shove from those within, and he sprawled in the gutter.

"Bake" burned the breeze in earnest until he reached the Texas side and an evening of kidnapping was over. There were several squeals of appreciation, an embrace or two thrown in, but well, all that is part of a sheriff's business too, Uncle Billy says with a grin.

the contest was fair.

Game With Paducah.
Coach Morrow announced yesterday that he has definitely scheduled a game with Paducah for next Saturday at the Vernon fairgrounds. The contest will start at 4 o'clock promptly. The locals defeated Paducah last season, and the up state team is said to be thirsting for revenge.

Following is the lineup used in last Saturday's game: Ferguson, l. e.; Colter, l. t.; Reed, l. g.; Blackwood, c.; McCombs, r. g.; Thompson, r. t.; Hollar, r. e.; Bramlett, o. b.; Small, l. h.; Parr, f. b.; Fain, r. h. Substitutions were Smith for Fain, Fain for Smith, and Bourland for Ferguson. Smith suffered a severely wrenched ankle during the game. Harry Viner, University of Missouri, was referee, and Alfred Dohoney, Virginia Military Institute, was umpire.

SUCCEEDS SECRETARY FALL AS NEW MEXICO SENATOR.

John R. Bursum (Republican) who has been elected United States Senator from New Mexico, to succeed Secretary of the Interior Fall. Senator Bursum is now serving out Secretary Fall's unexpired term. He was elected for the full term of 97-8 over Richard H. Hanna (Democrat) and A. A. Sena (Independent) by a majority of 7,000.

Mrs. J. T. Williams returned home Saturday after a visit with her daughter, Mrs. C. L. Green, in Wichita Falls.

Remembrance In Business

It does a man's heart good to discover that this is a far better and kinder business world than he had thought it could be. He fairly radiates warm gratitude and good will.

Friendliness is a priceless quality in Business, a constant urge which makes sales more quickly and more surely than any amount of dry logic or argument; it cannot be neglected; it is too valuable; it must be intelligently fostered.

Just the reason our business has grown from year to year our friends remember.

NUMBER 74

ATTRIBUTES WAVE OF PROSPERITY TO FARM BUREAU

S. J. Enoch, Bureau Expert, Says Organization Has Occasioned Rise in Price of Cotton—Outlines Purposes of Association and Warns Against Attempts to Break Contracts.

The wave of prosperity sweeping at present over the United States is more attributable to the farm bureau than any factor in existence. S. J. Enoch, bureau expert, told a group of farmers assembled on the grounds in the rear of the library building Monday afternoon. This buoyancy has been occasioned by the system employed by the Cotton Association in marketing the crop of its members. The increased price for cotton has reflected itself through our entire economic structure bringing an immense amount of relief.

Mr. Enoch commenced his meeting on the court house steps, but an order from the presiding judge sent the gathering scurrying for other space. Court proceedings were said to be disturbed by the sound of the speaker's voice.

Organizations Distinct.

The farm bureau and the cotton associations are two distinct organizations, the speaker informed his audience. Although, of course, they are linked together by the same general purpose, the work of each is along an individual line.

In the event that present members regret having joined the farm bureau said Mr. Enoch, they must realize that now it is too late to back up. The contract entered into is absolutely binding, and cannot be broken under circumstances. Its validity has been tested in the courts, and found to be perfect.

Have Own Order

Members of the farm bureau are today receiving more advances on their cotton than previously for the entire sale of the same. Under the old system the grower brought his product to town and was forced to accept the grade put upon it by an individual who was usually interested in buying it for as low a price as possible. Today that work is performed by a bonded grader who has no other interest whatever than to establish a correct estimate of the cotton. Moreover, a government inspector is now present at the farm bureau grading centers to aid in the work.

To the insinuations of its enemies that the farm bureau is but a "flash in the pan," said the speaker, there is the compelling argument that the United States government has advanced it fifteen million dollars to carry on its work, and this policy would never have been pursued had the organization been found unsound. Texas banks, too, have advanced \$1,500,000 to the bureau as an expression of their faith in its principles.

Contract Inviolable

The farmer who thinks he can evade his contract by marketing his cotton in the name of his wife or boy is mistaken, said Mr. Enoch. Unless the boy is 21 years old, or married, his father has a right to convey a clean title to any of his property. Likewise, unless the wife has been previously signing all papers for her husband, he can dispose of property without her consent.

The argument that one's landlord will not permit marketing through the farm bureau also will not hold water, said Mr. Enoch. The manner in which the tenant disposed of his cotton did not concern the land owner before, and as long as he receives his fourth of the crop, he has no jurisdiction in the matter whatever. Farmers who face this difficulty are urged to communicate with the farm bureau at once.

Guarantees Member's Debts.

In the matter of mortgages, Mr. Enoch pointed out that unless it was directly specified that the cotton had to be marketed in the county in which it was raised, it had to be carried elsewhere. Bankers, too, cannot force the farmer to market his cotton until the mortgage falls due. When this occurs the grower can market only enough to meet his obligations.

The business of the farm bureau, asserted the expert, is to guarantee the debts of its members. It intends to make the banker more secure, to safeguard the interests of the merchant. It will be only a matter of time, he

"TAPS" FOR AMERICAN ZR-2 VICTIMS.

The Navy paid its last honors to sixteen American victims of the ZR-2 disaster, with impressive funeral services, in the Brooklyn, N. Y., Navy Yard. The photograph shows a Marine bugler blowing "Taps" over the coffin of Lieutenant Commander Maxfield, one of the victims.

RAIN OF AID TO WHEAT FARMERS

MOISTURE COMES AT RIGHT TIME TO PROVIDE SEASON FOR LAND.

Rain of Saturday night and Sunday morning proved a benefactor for which cotton farmers have been anxiously waiting, that is, those who are seedling wheat. Many started this week last week and their number has been considerably swelled this week.

South of town the rainfall was reported as lighter than in the immediate vicinity of Vernon, and communities in this district may wait awhile before starting seeding in earnest. Where the moisture was sufficient, it provides season enough for the ground to get the wheat up.

Little damage to cotton is thought to have been occasioned by the rain.

said, until the first question asked the farmer applying for credit will be, "Are you a member of the farm bureau?"

Farmers Takes "Leavings."

Mr. Enoch compared the condition of the farmer with that of the merchant and pointed out the discrepancies that exist in favor of the latter. This state, he asserted, is due largely to the fact that townspeople demand the conveniences of life to which they are entitled, while the agriculturist has been satisfied with taking what he can get. No salaries for members of his family who toil in the fields, and the rudest conveniences at home have been the sorry lot of the farmer, he said.

There is no tangible commodity in existence with the exception of cotton that the world cannot do without, said Mr. Enoch. He proceeded to review the uses of cotton, and its indispensability to the human race. Cotton as collateral was also praised by the speaker.

Is Economic Independence.

Mr. Enoch outlined the origin and success of the California Fruit Growers' Association, and asserted the cotton association can stabilize prices in just the same manner as well as guarantee a reasonable profit to its members. Unless the farmer can offer to his boy the same opportunities that the lad can find elsewhere, said Mr. Enoch, he has no right whatever in urging him to remain on the farm.

All that is required of members in the Farm Bureau Cotton Association, the speaker pointed out, is to follow their contracts. The remainder of the work is taken care of by the organization. The new era inaugurated by the farm bureau was likened by Mr. Enoch to the American forefathers who signed a declaration of independence from England. Entering into a contract with the farm bureau is equivalent to signing a declaration of economic independence, he said.

About 100 farmers heard the speaker's eloquent address.

THINKS COUNTY SEED GOOD AS ANY

LUTHER WEBB SEES DANGER IN PURCHASE FROM OUTSIDE DISTRICTS.

Cotton seed grown in this county is equal to that produced anywhere, in the opinion of Luther Webb, local insurance dealer and formerly a cotton buyer, and there is no good reason why residents in this locality should go outside to buy it. The great danger, Mr. Webb points out, is from the dreaded boll weevil and this menace is transmitted readily through the seed.

It is a fact, he said, that much of the seed purchased without the confines of the county comes from districts much nearer the infected areas than is Wilbarger. This county has been kept remarkably free from an invasion of the pest, and in the event it once secured a foothold here, the event would be little short of calamity. Not only the farmer but those in all branches of merchandising here would suffer heavily.

Alford As Example.

Mr. Webb mentioned having lived several years ago at Alford when the cotton crop in that vicinity yearly averaged in the neighborhood of 7,000 to 8,000 bales. This year, he said, with the boll weevil flourishing in that district, the yield is estimated at about 100 bales.

Salesmen are continually in Vernon and the surrounding country peddling their wares, he said, and each year several carloads of seed are usually shipped in. As far as is known this seed is not carefully inspected by an authorized agent, and could easily convey the boll weevil to this section.

Wilbarger seed, said the former cotton buyer, is grown in as many varieties as can be found anywhere and is of as good quality.

ROBINSON AND BYRD PLAN TO FILE ON NEW LAND

P. H. Robinson, Jr., and Frank Byrd left today for Los Angeles, to look over government land recently opened up to ex-service men. The local prospectors intend filing claims for a section apiece. According to a ruling of the government, the time spent in the service is deducted from that necessary to prove up the land, and it will be necessary for Robinson to spend but seven months on the section to own it. This minimum is required from every one, as well as \$500 in improvements.

Others in Vernon are said to be contemplating taking up some of the newly opened land.

New Teacher for High School.

Miss Sallie Felman of Tyler, a graduate of the University of Texas, will come to Vernon to have charge of commercial courses and classes in history. She replaces Miss Jessie Hickman who has gone to Canyon as an assistant in Northwest Texas Normal.

COUNTY ENTRANTS GAIN HONORS AT CHILDRESS FAIR

Bourland and Sharp Take First Place With Transmission, And Joe Collins Reaps Practically All Honors In Shorthorn Class—Hog Show Said To Be Of Exceptional Quality.

Wilbarger county entrants in the Childress Fair last week, A. M. Bourland and Joe Collins, won distinction for themselves and the section they represented by exhibiting animals that were conceded by judges to be the best on display. Transmission, formerly Long Orange, Jr., the now famous Pol- and China male owned by Bourland, Sharp and Alexander took first place in the aged boar class, and Bourland and Sharp also won premier honors with a yearling sow.

Mr. Collins garnered practically all the honors in the shorthorn class, and took almost all the grand championships. Victories for the local exhibitors were gained against a field of intense competition. Transmission was taken from Childress to Oklahoma City to be exhibited in the State Fair at that place and from thence will be taken to Dallas for the Texas State Fair from October 8-23. Mr. Collins will take the best individuals in his show herd to the Dallas Fair next month.

Hog Show Extraordinary.

The hog show at the Childress Fair was said by Wilbarger county Agent to outrival that of the majority of State fairs. Childress and vicinity is noted for a wealth of hog fanciers and breeders, who produce exceptionally fine specimens for show purposes. Exhibits came from all parts of West Texas, and according to the judge at the Fair, he had seen no finer display of hogs outside the National Swine Show at Chicago. There were 250 hogs entered in the Childress Fair.

The agricultural exhibit at the Childress Fair was also exceptional. It is said that 42,000 persons attended the Fair during its session of four days, and 16,000 were in attendance during one day. Horse races and rodeo combined to insure entertainment during the exhibition.

CHINESE LAUNDRYMEN RETURN TO HOME LAND.

Hon Long, proprietor of the local Sam Lee Laundry, and his fellow worker Hon Fen left this morning for California where they will sail in about a month for their home in Canton, China. Both have families in the Orient. Their stay in the home land will be indefinite, and according to Hon Long, his wife might "no let me come back."

The travelers will remain in California for about a month, attending to the matter of passports and selection of the ship upon which they will travel. They will be on the Pacific for twenty eight days.

Missionary to Brazil Coming.

Dr. A. B. Deter, missionary to Brazil, will fill the pulpit of the First Baptist Church next Sunday at both hours. Dr. Deter has been missionary to Brazil from the Southern Baptist convention for about twenty years, and is home now on a furlough. He is said to be an interesting, informing, inspirational speaker and it will be a rare opportunity, friends say, to learn of the religious situation in the Republic in South America which is larger than the United States.

March Pullet Sits in September

J. A. Gilliland, local dairman, is possessor of a prize sitting hen. At least, that is the way Mr. Gilliland feels. About March 15th one of his birds came off with a brood of chicks. The downy little fellows seemed vigorous, but gave no evidence of unusual qualities. In August one of the pullets started laying. She disappeared, and recently came in with a brood of her own, although she is only six months old. "What kind of chicken is she?" Mr. Gilliland was asked. "Just chicken," he replied.

Conference At Tolbert Sunday

Rev. R. V. Tooley announces his Fourth Quarterly Conference at Tolbert to convene at 2 o'clock Saturday. Rev. W. P. Garlin, presiding elder, will preach at 11 o'clock Saturday morning.

AMERICAN RELIEF WORKERS IN RUSSIA.

Workers of the American Relief Administration, aboard their relief train, entering Soviet Russia at the Latvian frontier. This is one of the first photos to arrive here showing American relief work in famine-stricken Russia.

PLAN DISARMAMENT CELEBRATION HERE

LOCAL UNION IN CHARGE OF PARADE AND ADDRESS ON NOVEMBER 11.

Roy E. Davis, local contractor, has received orders from headquarters of his union, B. M. and P. I. U., Indianapolis, to make preparations for a demonstration to be conducted in Vernon November 11 in behalf of disarmament. The same orders have gone out to every city in which a local is in existence.

The demonstration here, Mr. Davis said, will consist of a parade and a speech from a Dallas orator. Every citizen is invited to participate in the parade, and can ride or walk as he chooses.

Further details concerning the demonstration will be announced later through The Record.

LOCAL YOUNG PERSONS WED.

Marriage of Miss Beatrice Ladd and Roy Thompson Occurs Last Night.

Miss Beatrice Ladd, daughter of Mrs. J. W. Ladd of West Wilbarger street, and Roy Thompson, son of Mr. and Mrs. J. D. Thompson living about two miles west of Vernon, were married last night at 7:30 at the home of Rev. E. L. Moore, Presbyterian minister. Both are well known here, having been born and reared in this county. There were no attendants at the wedding. The ring ceremony was used.

The bride is a member of a family known throughout Wilbarger, and received her education in Vernon schools. She is a graduate of Holcomb Training School.

Roy Thompson also attended local schools, and of late has been associated in business with his brother, Herb, at the General Auto Supply Company on East Wilbarger street. He will continue there.

Patterson Awarded Damages.

E. W. Patterson et al in a suit against the K. C. M. and O. Railway Company in the district court were awarded damages Saturday to the extent of \$700 on account of fire on the plaintiff's land occasioned by a locomotive on the railroad. Patterson owns sections 17, 18, and 19 in block 11, and sparks from the locomotive are said to have burned over 1,000 acres, causing \$5,000 damages to the grass, and \$2,500 to the premises.

Ferrell's Condition Unsatisfactory.

Bob Ferrell, who is in Dallas suffering from a cut in his eye, is not progressing satisfactorily, according to a letter received here by friends this morning. Ferrell experienced a hemorrhage in his eye recently, and attending physicians have grave doubts as to whether or not it can be saved.

Girl to Mr. and Mrs. Self.

A baby girl was born to Mr. and Mrs. D. W. Self of West Olive Street Saturday, September 24.

SEES BUT ONE WAY TO FURNISH COUNTY WITH GOOD ROADS

Bob Price Thinks Bond Issue Affords Readiest Solution To Proposition—Points Out The Growth In Amount Of Travel—Wants Better Highways While "We're Still Living."

"We have to have good roads all right, and as far as I can see there is only one way to get them," is the observation of Bob Price, well-known Wilbarger farmer living in the eastern portion of the county. Mr. Price can see no better method of obtaining the good in view than the issue of road bonds for the purpose of improving the highways.

Foard county and Wichita county are undertaking large improvement ventures, he points out, and Wilbarger cannot expect residents of those communities to be satisfied with "chuck" holes and said in this vicinity when they travel back and forth.

Wants While Living.

Mr. Price compared the situation with an occurrence of an acquaintance who would drink no water except that from a well belonging to a relative nearby. One night he awoke at 2 o'clock, and started to dress. In reply to his wife's question, he stated that he was going over to the well for a drink. "But wait until morning," she remonstrated with him.

"Nope," he said calmly, "I want it while I'm living." The proposition concerning the roads is very similar, said Mr. Price. We need them "while we're living" and there is no point in putting them off until a future date. The farmer is of the opinion that there are but a few persons in the county who are against the project.

Travel Heavier.

In response to the argument outlined by some that travel flourished in the olden days without concrete roads and improvements, Mr. Price points out that there is more freighting between his vicinity, Rayland, and Vernon in a week now than in an entire fall several years ago. Coal and cotton demand a tremendous amount of hauling, he said. In former years the farmer could burn wood, but this supply has now been exhausted.

A road leading from Mr. Price's home to Rayland is a good example of what neglect will do, he said. Ten years ago this was considered as fine a stretch as any in the county. No improvements have been made upon it, and as a result it is practically impassable.

JURY DECREES CAR NEED NOT BE PAID FOR IN FULL

In a suit brought in the district court by Jim Jennings against Jack Orr for full payment on a car sold to the latter last year, the debt amounting to approximately \$2,400, the jury decided that Orr must pay \$675 with interest, and the costs in the case. About \$1,100 had already been paid in on the machine by Orr.

According to testimony submitted by the defense, Orr was sold a defective car. When he refused full payment, suit was brought by the dealer.

May Again Drill Noble Well.

R. Stewart, head driller on the Noble well, has returned from Denver and intimated that the company would again commence operation on its holdings on the Judd farm. Drilling was suspended more than a month ago at a depth of 3,000 feet in order that more finances might be raised. Considerable local money is invested in the Noble well.

Many Visit Childress Fair.

County Agent C. R. Jones and Mr. and Mrs. A. M. Bourland spent Friday at the Childress Fair. Mr. Bourland says they have a big show in Childress, and it is wonderfully well patronized. The exhibits were A-L. Childress people turn out better than do our folks to the County Fair, in the opinion of the Vernon visitors.

City Extends Water Service.

City workmen are extending a water pipe several hundred feet beyond the city limits on West Wilbarger street. The new line will supply houses in the vicinity, and will be utilized when more residences are conducted on the vacant lots along the thoroughfare.

MORE'S THEATRE PROGRAM
(Continuous From Noon Till Midnight)

NOW PLAYING—TO-DAY—TUESDAY

The Noted and Talked of Picture—"SENTIMENTAL TOMMY" featuring Greth Hughes, Mabel Tulliaferro and May McAvoy.—(fascinating story of Sentimental Youth)
Kineto Review—"BABY LORD" Comedy "HOME RULE"WEDNESDAY—Gladys Walton in "THE MAN TAMER"
(Eye opening story of Circus-life, the girl who couldn't be Bluffed by Men of Lions)

SUNSHINE COMEDY—"MERRY JAIL BIRDS"

THURSDAY—BURT LYTEL in "THE MAN WHO."
(Romance of a Barefaced, Barefoot Bid for Fame)
VANITY Comedy—"HIS FOUR FATHERS"

COMING FRIDAY—TOM MIX in "BIG TIME ROUND UP"

At More's Theater

Today, "Sentimental Tommy"

Grizel has never been recognized as decent, because of the taint that has over her mother, when Tommy Sanders moves to Thrums, her native village. He becomes her champion when he finds the other children taunting her. During the years that follows Tommy becomes famous and returns to the village of Thrums to find Grizel, now a beautiful girl of 18, in love with him. He only pretends to be in love with her and makes plans to marry her; but she discovers his true feeling in the matter and refuses to go through with the wedding. He goes away then for a long time; but when Grizel has a feeling that he is in need of her she follows him to Switzerland. Here she finds him making love to some one else and she returns home broken hearted. He follows her there and marries her and sees her nursed back to health and sanity.

Wednesday, Bert Lytell in "The Man Who."

Bedford Mills was only a bank clerk and the girl he loved would not marry him because she wanted a man who did things. So Bedford decided to be the "man!" The thing he decided upon was to break the shoe trust and he started out by going barefooted. A host of people followed his example; and he got a great deal of free publicity; but the girl scorned him. It didn't matter for long, however; because he fell in love again and this time with the daughter of the shoe trust.

Thursday, Gladys Walton in "The Man Tamer."

Kitty Harrington's father, a lion tamer, is maimed by one of his lions, leaving her to do the act alone, and to fight off the advances of Delmar, the circus manager, and Bradley Caldwell, a profligate young millionaire who is enamored of her. She quits the circus to get rid of Delmar, but the other man continues to pester her. His father, seeing the possibilities in the girl, hires her to tame his wild son. This she does and the two proceed to fall in love. They then trace the older man with misgivings but he admits he has schemed for just this result.

At The Pictorium.

Today, "A Child for Sale."

This unusual picture features Gladys Leslie, Creighton Hale, and the two children, Bobby Connelly and Ruth Sullivan. It puts forth in dramatic form the injustices practiced by unscrupulous landlords in crowded districts in the city.

Wednesday, Constance Talmadge in "The Love Expert."

Babs is sent home from boarding school because she persists in carrying on her fanciful love researches instead of studying her lessons. Arrived there

FORMER GOVERNOR OF INDIA
FAMINE RELIEF WORKER

JAMES P. GOODRICH

James P. Goodrich, former Governor of Indiana, who sailed to Europe to join in the American Relief Administration in the famine-stricken areas of Russia. Ex-Governor Goodrich will be attached to the staff of Colonel William Haskell, director of the relief work.

she is just as bad as ever and her father sends her to Boston to visit a maiden aunt, who for six years has been engaged to Jim Winthrop. A wedding is still remote, however, because Jim has two sisters and an elderly aunt to care for. Babs decided that something had to be done and set out to do it by means of a fake telegram, which resulted in her going to Palm Beach. Later comes word of the aunt's marriage to the professor. This news does not break the handsome Jim's heart because the young "love expert" is there applying one of his remedies.

Thursday, Neal Hart in "Black Sheep."
This drama is based on the bloody warfare that was waged on the western plains during the last nineties between the cattle-men and the sheep-headers. It is adapted from "Baa Baa, Black Sheep" which appeared in Short Story Magazine.

Marriage Licenses issued.

Marriage licenses have been issued to the following: Charles Priddy and Miss Irene Davis of Odell, September 16; R. L. Smithson and Miss Mae Lane of Vernon, September 16; J. C. Chisum and Miss Jettie Belle Sorrell of near Harrold, September 16; C. S. Dunn and Miss Merle Sheldon of Electra, September 19; Robert L. Bomar of Crowell and Miss Ruby Spears of Vernon, September 20; Jodie D. Smith and Miss Wella Elizabeth Culbert of Electra, September 23; J. C. Robinson and Miss Grace Frazer of Vernon, September 24; Gilbert Yarbrough and Miss Stella Kincheol, September 24; Roy B. Thompson and Miss Beatrice Ladd, September 26.

Everything in leather goods at Swartwood & Co. Adv. Itc

Roy Davis drove to Wichita Falls for the week-end.

Mrs. Katherine Waggoner is visiting in Dallas.

Shopmade boots guaranteed for service, at Swartwood & Co. Itc

Mrs. Frank Edmonson has returned to Vernon to make her home. Her husband who is now deputy sheriff at Breckenridge will join her in about a month. Mr. and Mrs. Edmonson moved from Vernon to Breckenridge the first of the year.

Mr. and Mrs. Ted Morrow and baby returned Friday from an automobile trip to Fort Worth, Dallas, and Waco. Mr. Morrow attended the meeting of Rotary presidents and secretaries in the latter city.

Tom Lee, Hall county "breakdown" fiddler, is visiting his father south of town. Mr. Lee is contemplating locating in Vernon and believes this vicinity is excelled by none in the State.

AMERICANS BRING RELIEF TO STARVING RUSSIANS.

Refugees from the famine-stricken areas of Soviet Russia waiting in line in front of the first of the American Relief Administration's food stations, in Moscow, for their daily rations. This is one of the first photos to reach this country showing American relief activities in Soviet Russia.

JOHN BURGESS' RESIDENCE
BURNS THIS AFTERNOON

The residence of John Burgess, near the corner of West Malice and Deaf Smith streets, completely burned this afternoon shortly after 1 o'clock. The blaze was occasioned in some unknown manner by a small girl playing inside the house while her mother was busy outside.

Three small children are in the Burgess family, and one was rescued from the flames just in time by a bystander. The flames had gained tremendous headway by the time the department reached the scene. The dwelling was a small, two-room affair.

Cotton Market Grows Stronger.

Vernon's cotton market opened somewhat weakly this morning at 20 1/4 cents, but at noon had advanced to 21 cents. Cotton is again coming in quantity to the gins after the rain of last week-end.

Automobile Case in Court.

The case of Vernon Daniel et al vs. The Automobile Insurance Company of Hartford, Conn., is being tried in district court today.

We have a full line of school tablets. A stock of candy with each purchase. See the bicycle in our store. Star Cash Grocery, 621 Throckmold street, near

Dr. O. W. Wilson, Eye, Ear, Nose and Throat Specialist of Wichita Falls, will be in Vernon next Sunday, October 2—office at The Standifer Hospital, 1421c Adv.

Let us fix your old harness and saddle; prices right and quality service. Swartwood & Co. Itc

Mr. and Mrs. W. T. Terry and baby were in Wichita Falls over the week-end. They witnessed the football game between Wichita Falls and Vernon.

Chandler Carraway spent the week-end with his family in Vernon.

D. E. Butler of Floydada was the guest Sunday of Miss Cleo Bowers. Mr. Butler was on his way to Baylor University where he has entered his senior year.

Mrs. Jordan Seriously Ill.

Mrs. M. E. Jordan, 77 years old, of West Wilbarger street, has been seriously ill since last week with heart trouble, and her life has been despaired of for some time. Ropes were stretched across the street yesterday to prevent traffic from passing the house, but were removed this morning at the sick woman's request. She has been in bad health for some time. Her condition this morning was somewhat improved.

Lubbock Paper Has 130 Pages.

The Record is in receipt of a copy of The Lubbock Avalanche containing 120 pages. This is an industrial and fair number. It contains 8-page sections on Abernathy, Crosbyton, and other municipalities on the South Plains. It is a remarkably complete story of that section, and is liberally patronized.

Mr. and Mrs. Sylvester Manger returned last week from a lengthy visit in Dallas.

Embezzlement Charge Dismissed.

A charge of embezzlement against John Gant was dismissed last week-end by the district attorney.

Judd Builds Residence.

R. B. Judd is building a modern residence one block west of the stand pipe. It will be constructed of brick.

Shopmade harness at greatly reduced prices at Swartwood & Company's Itc.

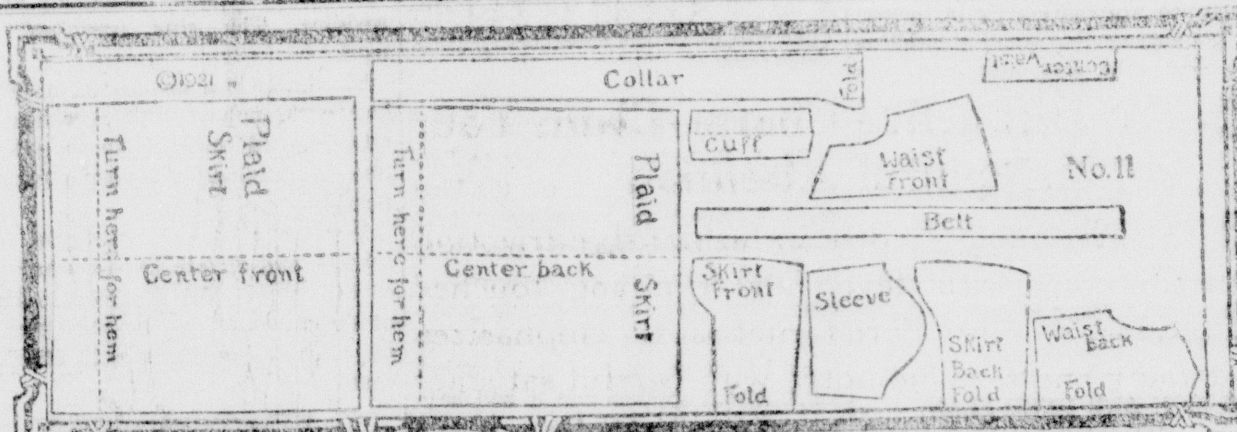

Mr. and Mrs. Robert Bomar of Crowell were in Vernon yesterday.

Shopmade boots guaranteed for service, at Swartwood & Co. Itc

Evans Mason left Sunday for Austin where he will attend the State University.

R. D. L. Killough went to Amarillo Friday on legal business.

Mr. and Mrs. O. T. Youngblood and three children of Paducah spent the week-end with their parents. Mr. and Mrs. T. J. Youngblood, Mrs. T. J. Youngblood, and daughter, Miss Oleta, motored to Quanah Friday to meet their guests.

For Six Dollars Any Girl Can Make This Gingham Dress of Marion Davies'

An All Round Bright Gingham Dress for Summer

By MARION DAVIES

Film Star of "The Restless Sex," "Doried Treasure," etc.

What do you like better for real summer wear than a bright, crisp gingham dress? Nothing, I'll warrant, and I feel the same way about it. I like to call this my garden dress, but I wear it anywhere because it is so cool and comfortable, and piquante. I chose the reddish Scotch plaid on a background of white. I like the scarf effect of the collar and the plaid bodice.

Did you ever try putting rings on the end of a scarf? It's great fun and this was my own idea, of which, I must confess, I am a little proud. I hemstitched the ends first and then found these rings that I had used on another dress several years ago. It is a good idea, I have found, to keep ornaments of that kind. You never know when you may want them. I put four on the belt, too.

You can make the exact replica of this dress for \$10 and even less. Follow the pattern carefully and I am sure you will find this dress as easy to make as I did. It took 3 1/4 yards of the plaid, 36 inches wide and 1 1/2 yards of the white of the same width. I used batiste for the white, but linen would be good or niquet.

I made the pattern on the 1-16 reduction scale for size 36. If there is anything you would like to ask me about it, address me at Cosmopolitan Productions, 127th Street at Second Avenue, New York City.

TEXAS A MANUFACTURING STATE

Judge D. F. Goss of Seymour insists
 that Texas mills should manufacture
 Texas cotton and woolen goods; Texas
 tanners should tan Texas hides and
 Texas shoe factories should turn out
 footwear for Texas, New Mexico, and
 Pan-America. Many other forward-
 looking Texans are voicing the same
 sentiments.

In fact it is difficult to understand
 why raw material produced on Texas
 farms and ranches should be sent to
 New England for manufacture and
 then sent back to be sold to the pro-
 ducers of raw material. Just now
 Texas is not nearly self-supporting
 in many lines. Texas money is sent
 away to buy meat and butter, fruit
 and vegetables, flour and nuts. All of
 these we might produce on our own
 acres.

Making Texas self-supporting in all
 of these lines means millions of dol-
 lars to Texas farmers and stockmen
 to Texas manufacturers and merchants.
 Texas has water power in the south-
 west, fuel in many sections, and an un-
 limited supply of raw material. Surely
 Texas has the men to make real-
 ities of all of these potentialities!

ENCOURAGE THE HOME TEAM.

Vernon's High School football team
 has a right to feel elated over the show-
 ing made Saturday against Wichita
 Falls. A nothing to nothing score
 should give the boys much to hope for.

And the winning of a high school
 football championship is no small mat-
 ter! This is no less true of the town
 than for the boys. Grown-ups have a
 pardonable pride in winners, nor is
 their pride lessened because the win-
 ners are of their own flesh and blood.

Vernon would be advertised no little
 by a championship football team. Such
 a finale to the present season would
 tend mightily to enliven the boys with
 going to school especially so since they
 must make their grades to play on the
 team.

These are two big reasons why the
 Record hopes everyone will pull hard
 for the home team this fall.

WHY NOT PROSPEROUS

With 5,644 bales of cotton already
 ginned, why should not Wilbarger
 county take on an air of prosperity?
 At 20c a pound this figures well
 above the half million mark for cotton
 and seed. Of course, the farmers are
 feeling better, and when the farmers
 smile, it is almost impossible for the
 rest of us to look glum.

The rapidity with which cotton is
 coming in this year is remarkable.
 Nineteen hundred nineteen was a
 bumper crop, and yet at this time
 only about 375 bales had been handled
 by the public weigher in Vernon.

It is reasonably safe to estimate
 that the Wilbarger county farmer
 will receive approximately \$1,500,000
 this year from his cotton crop. Half
 that much was realized from 1920
 wheat harvest. Surely it is time to

chase "Old Man Gloom" out of the
 county, and while chasing "Old Man
 Gloom" why not lay plans for a three-
 quarter million dollar poultry crop
 another year?

THE WORLD'S LARGEST SUN-
DAY SCHOOL

Fort Worth, Texas, boasts the
 largest Sunday school in the world.
 The first Sunday in September 5,233
 men, women, and children were pres-
 ent at Sunday school in the First
 Baptist Church of that city. Twelve
 years ago the average attendance was
 fewer than 500.

The Rev. Frank Norris is pastor.
 All quarterlies, leaflets, or Bible
 helps put out by the Publishing Houses
 have been put aside; and each Sunday
 morning every class in every depart-
 ment studies the same chapter of the
 Bible.

You will see men in their work
 clothes and women in calico at Mr.
 Norris's church," a recent visitor says.
 "And they feel at home." This same
 visitor says that the pastor is strange-
 ly old-fashioned, highly doctrinal—
 but, withal, he stays close to the Bible.

No higher tribute to the Bible and
 Christianity can be paid than that is
 being paid daily by the women and
 men who are faithful attendants on
 the First Baptist Church in Fort
 Worth.

Current Comment

THE RUSH TO COLLEGE

The extent to which the young
 people of this country have acquired
 faith in the value of higher educa-
 tion may be gathered from college en-
 rollments which are now being made
 public. Smaller colleges as well
 as universities which have been heard
 from so far report almost incredible
 increases.

Despite some remarkable records in
 the past, it is certain that the rush
 to college this year will be greater than
 ever before. Even increased tuition
 and living costs in college towns as a
 result of this crowding are no bar to
 the great crowd clamoring for a col-
 lege education. In the schools in
 which it was decided to resort to stiff-
 er entrance examinations to keep
 down the enrollments even this has

UNIVERSITY PROFESSOR IS
NEW MINISTER TO DENMARK

Dr. John Dyneley Prince, professor
 of languages at Columbia University,
 who has been nominated by President
 Harding as Minister to Denmark from
 the United States, is president of the
 Civil Service Commission of New Jer-
 sey. He lives at Ringwood manor and
 is a close friend of United States Sen-
 ator Frelinghuysen, who recommended
 him. Dr. Prince was a member of the
 New Jersey Assembly in 1904-8 and
 Speaker in 1909. He was afterward
 leader and president of the State Sen-
 ate.

failed. The desire for higher educa-
 tion seems to overcome all obstacles.

For obvious reasons many educators
 had expected, if not a decreased, at
 least no greatly increased enrollment;
 so that they are now at a loss to explain
 this unexpected phenomenon. Others
 see in it nothing more than the fact
 that public interest in education is
 being taken up at the point where it
 stopped when we went to war. The
 demand for higher education, however
 strong it may seem now, is no greater
 than it would have been normally had
 there been no war.

A good share of the increased col-
 lege enrollment is due to the fact that
 the value of a college education is be-
 coming more widely known. No doubt
 the raising of the standards of educa-
 tion even in the high schools has much
 to do with this rush to college. Many
 parents who a decade ago were satis-
 fied with a high school diploma for
 their children are no longer satisfied
 with this minimum. They are apply-
 ing to education the slogan so familiar
 in the field of business. "The best is
 the cheapest in the long run." Cer-
 tainly our present rush to college ad-
 mits of no other interpretation.—Albu-
 querque Journal.

GIVES CHILDREN PICNIC.

Those Who Attended Nutrition Class
 Regularly Are Taken Out On Out-
 ing By Miss Eilman.

Miss Rose Eilman, public health
 nurse for Wilbarger county, took for
 a picnic in Allingham park Saturday
 afternoon the children in her nutrition
 class who have attended regularly dur-
 ing the three months course. Those en-
 joying the outing were Charles, James
 and Ruth Kell Lutz, Guy and Dorothy
 Wheeler, Glen and Annabelle Robert-
 son, Harold and Elmer, Jr., Wright,
 Pauline and Jack Cain, Patry Har-
 rold, Catherine Easterling, Bryan
 Devaughn, Frances Brown, Holmes
 Dollarhide, Betty Mae Brown, Nina
 Mae and Annette Smith and Zymena
 Trout. Four mothers were present.
 They were Mrs. J. E. Lutz, Mrs. Guy
 Cain, Mrs. E. G. Wright and Mrs. G. H.
 Wheeler. The little tots were taken
 out at 4 o'clock and had their supper
 and returned before dark.

A total of 73 children were enrolled
 in the nutrition class during the
 three months that Miss Eilman con-
 ducted it. All of this number have
 gained weight and many of them have
 gained five and six pounds, in spite of
 the excessive heat of the summer, a
 factor against which it has been
 hard to compete. Miss Eilman says
 she is very proud of the improvements
 made by the children in the class. No
 other will be started immediately but
 the Red Cross nurse hopes that the
 little folks will continue to come ev-
 ery Saturday to be weighed.

One of the greatest benefits which
 have been derived from the nutrition
 class, Miss Eilman says, is the chil-
 dren's learning to eat the proper foods
 and to take the required amount each
 day.

 his aunt, Mrs. J. B. White.

CROWELL MAN WANTS ROADS

W. E. Kimsey Says Conditions Are
 Worse Now Than They Were In
 Pioneer Days.

Conditions of the roads are more de-
 plorable now than in pioneer days,
 according to W. E. Kimsey of the
 Foard County News. Mr. Kimsey was
 a Vernon visitor Saturday.

"For the most part, Foard county
 has better road-making material than
 you have," Mr. Kimsey told a reporter.
 "However, we have a big problem
 making it possible for the farmer to
 get to town without undue loss of time
 when he wants to market his crops.

"As I see it the only thing Wilbarger
 county can do is to pave her highways,
 this is especially true in the sand.
 Without this people are paying a big
 price for the privilege of riding over
 the almost impassable roads. It would
 cost a great deal less, in the end, to
 to pave."

A VERNON MAN'S
EXPERIENCE.

Can you doubt the evidence of this
 Vernon citizen?

You can verify Vernon endorsement.
 Read this:

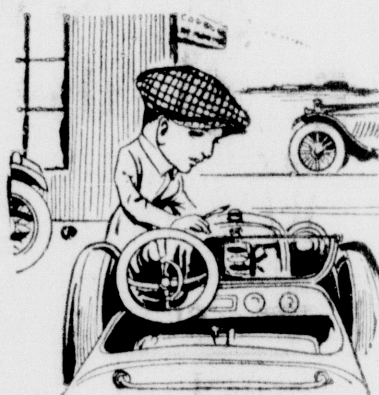

J. J. Manis, owns Auto Accessory
 store, North Bowie St., Vernon, says
 "Some years ago my back and kidneys
 were in bad shape caused from a strain.
 My back was so bad I could hardly
 turn over in bed. There was a heavy
 pain across my back and hips. My
 back was so sore and lame at night
 I couldn't sleep and mornings when I
 first got up I could hardly straighten.
 My kidneys were in awful shape and
 were inflamed, irregular and weak in
 action. The kidney secretions contain-
 ed a sediment and were painful in pas-
 sage. I used different kidney remedies
 but none of them did me any good. I
 finally bought Doan's Kidney Pills at
 Pendleton & Sons Drug Co., and two
 boxes of this medicine cured me of
 every symptom of kidney complaint.
 The cure Doan's Kidney Pills gave me
 has been permanent."

HER ATTRACTIVE COSTUME WAS TALK OF THE VOYAGE.

Mrs. M. H. Bancroft, in a gray jersey dress and deerskin coat to match, the latest Paris fashion, created previous glances among the women passengers of the S. S. Orinda, which recently arrived in New York.

LATEST BICYCLE TIRES FROM WEST END LONDON.

Something new in Bicycle Tires, seen in the West End London. This bicycle rider prefers enormous sized tires to the old-fashioned smaller ones. Although bulky looking and apparently heavier than the ordinary tire, they do not weigh more, are ten per cent speedier and, being air-filled and made of the best grade pure rubber, are as light and comfortable as the tires of a limousine.

Is Doubting Thomas No Longer.

"All medicines and doctors for stomach trouble proved worthless in my case. Everybody recommended something else, and nothing helped, so I became a doubting Thomas as to any cure. While in St. Louis a party praised May's Wonderful Remedy so highly that I bought a bottle and I am now a doubting Thomas no longer." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold in Vernon by Ferguson Drug Company and druggists everywhere. H. Adv.

Misses Mattie and Louise Smith left Sunday for Denton to attend the Normal at that place.

UNCLE SAM HAS DEVOTED YEARS TO STUDY OF POULTRY PROBLEMS

Poultryman May Work Out Best Methods for Himself, But It Costs Money and He Has Already Paid the Government for Doing It—Information Free.

Poultry raises, whether engaging in the business on a large scale or owning only a small flock, will find it to their interest to get in touch with the United States Department of Agriculture when in doubt about the best methods to follow.

Visitors in Washington wishing to consult the department's poultry specialists are invited to call at their office and also to visit their experimental farm. The work in poultry feeding and breeding is conducted by the Animal Husbandry Division and that relating to diseases by the Pathological Division of the Bureau of Animal Industry.

Many bulletins are available dealing with various phases of poultry raising, any of which may be had upon application to the Division of Publications, United States Department of Agriculture. In addition to the regular bulletins there are a number prepared especially for boys' and girls' clubs and persons beginning the poultry business without much knowledge of its requirements. A list of these may be had upon application to the same division.

Various Rations Tested

At the department's experimental farm at Beltsville, Md., various rations are being fed to hens to study their effect. For example, in one experiment the hen balances her own ration; in another fish meal is included; in another hot wheat or wheat products are used; while cottonseed meal replaces a part of the beef scrap in another. Comparisons are also made of the effect of the same rations on hens of the egg breeds as compared with those of the general purpose breeds. Only simple rations of widely available feeds are used. A large amount of data has been obtained on the feed cost of producing eggs.

Hens in considerable numbers are

being trap-nested, and matings made to determine the possibilities of different methods of breeding in increasing or fixing egg production. Matings to fix certain types or characters desired in the flocks are also made. No birds are retained in flock which have a disqualification that would bar them under the rules of the American Standard of Perfection. The results being obtained indicate that it is possible to combine utility and standard breeding to a practical degree. Any of this information is available for the persons requesting and the department is eager to have it used widely.

Boys' and Girls' poultry clubs have wide influence in interesting the children in raising chickens, and in teaching them and their parents the best method of handling poultry for the production of eggs and meat. The department cooperates with the State agricultural college in forming these clubs.

The department's activities include every branch of poultry raising, and this includes turkeys, ducks, guinea fowl, pigeons, and even ostriches. A small flock of ostriches is maintained at Glendale, Ariz., where their feeding, breeding, and management are being carefully studied. The production of ostrich feathers with special reference to their quality and to the eliminating of certain defects common to American feathers is receiving attention.

Getting Away From Bad Eggs.

The department is giving special attention to improving the quality of market eggs with a view to overcoming losses estimated at many millions of dollars annually. These studies cover the production of eggs on the farm and their handling from the farm to the country store. The production of infertile eggs, which are far superior in keeping qualities to fertile eggs, is being advocated.

ENTERTAINMENT

VERNON BATTLES WICHITA TEAM TO TIE IN FIRST GAME

Local Lads Divide Honors Evenly In Football Contest Saturday—Home Team Makes Desperate Effort To Win By Use of Substitutes—Vernon Line Holds Splendidly.

Displaying a defensive that Wichita Falls at all stages of the game was practically unable to penetrate, and with an offensive of reasonably strong calibre, Vernon high school fought the lads from the oil city to a standstill last Saturday, the count standing 0 to 0 at the end of the game. There was little to choose favoring the work of either eleven, and the game was remarkably free from spectacular work of any sort.

Vernon's line proved the surprise of the day, the heavy Wichita backs failing utterly to make advances of any considerable length from tackle to tackle. Forward passes netted the only appreciable gain made by the home team. Vernon practically abandoned the aerial method of attack, and relied chiefly on straight football and kicking.

Line Plays Well

Small and Bramblett performed well in the backfield, and Colter showed up especially well in the line. The latter went down under the punts well, and broke through the opposing forwards repeatedly. There was but a shade of difference, however, between his playing and that exhibited by his mates in the line.

First Quarter.

Vernon kicked off at 4:15, Wichita returning about eight yards. Wichita kicked and Small returned a short distance. Small tried both ends for no gains, and kicked. Wichita blocked the ball and recovered the ball.

Wichita bucked the line but Vernon's defense proved impregnable. Wichita tried a forward pass which was incomplete. Wichita fumbled and lost ten yards. Another forward pass was incomplete and Wichita kicked to Vernon's 35 yard line. Small lost ten yards on an attempted run and kicked. Wichita passed for twenty yards. End of first quarter.

Second Quarter.

Vernon kicked and Wichita advanced the ball to the local's 20 yard line. Vernon's line held, and the ball went over on downs. Vernon kicked to midfield.

Wichita completed a pass for 12 yards and prepared for a drop kick. Goal was missed and it was Vernon's ball on their 20 yard line. Small's work at breaking up passes and tackling runners around end was one of the features of Vernon's defense. End of first half.

Third Quarter.

Wichita kicked off to Vernon's 10 yard line. Vernon intercepted a forward pass on Wichita's 25 yard line. Wichita then intercepted a Vernon pass on its 15 yard line.

Wichita kicked to Bramblett who made a pretty return. Vernon missed the snap back, and Wichita recovered the ball. Wichita bucked the line and attempted several forward passes, one of which Vernon intercepted. Ver-

MISS CHRISTMAN SITS IN UNEMPLOYMENT CONFERENCE

Miss Elizabeth Christman, appointed by Secretary of Commerce Hoover to confer with others of well-known ability on the unemployment crisis has had dealing with industrial problems. Miss Christman represents organized labor. She is secretary of the International Home Workers' Union and secretary-treasurer of the National Women's Trade Union League.

FIRST PICTURES OF ACTUAL AMERICAN RELIEF AMONG RUSSIAN FAMISHED PEOPLE.

Refugees from the famine-stricken areas of Soviet Russia surrounding the first of the American Relief Administration's food trains to arrive on the outskirts of Moscow. Some of the refugees may be seen preparing the food given them by the American workers. This is one of the first photos to arrive in the United States showing our relief work in Russia.

KIDNAPPED TWICE IN ONE EVENING; BOY IS HOME AGAIN!

To be kidnapped and spirited away from home before one can say "Jack Robinson" is sufficient experience if it happens but once in the life of a 7-year-old boy, but to be re-kidnaped the very same evening and whisked away in an automobile is really carrying the matter too far. At least, this is the opinion of a certain little youngster of that certain name who is the son of a certain trained nurse in Vernon.

The lad was taken from his mother Friday night by his father when the latter came ostensibly to a local hospital to talk to the child. It was simply a matter of stooping, gathering the child swiftly in his arms from the porch, and running to a service car waiting nearby. Car, husband, and child disappeared in the night leaving a distraught woman wringing her hands and imploring some one to help her.

Sheriff Takes Hand.

Sheriffs have a knack in serving in every emergency from a murder to conducting a lost-found column, and Uncle Billy Ish is no exception to the rule. Hearing the mother's story, he quickly communicated with nearby towns, and ere long determined that a man answering the description of the kidnaper departed from Frederick, Okla., in the direction of Vernon a few hours previously. It was discovered that the designing one abandoned his car at the Frisco bridge, walked over to the Texas side, and engaged the services of another automobile to bring him to town.

Standing in the sheriff's office were non-kicked. Small's punts were of fair length and high.

Wichita attempted two line bucks but but could make no gain, the ball going over to Vernon on downs. Vernon was penalized 15 yards for holding. Vernon kicked to midfield. End of third quarter.

Fourth Quarter.

Wichita completed a pass which netted it 40 yards by an old trick of sending a man to lie out on the side lines. Wichita attempted a drop kick from the 18 yard line but missed. Vernon kicked to midfield. Wichita returned the kick and Vernon again punted the ball.

Vernon intercepted a forward pass and by a series of line bucks took the ball to the center of the field. Vernon kicked the ball to the 30 yard line and recovered the ball. Line plunges took the ball to Wichita's 10 yard line but Coach Morrow's men could not deliver over the final punch and the pigskin went on downs.

Wichita passed for 45 yards. Wichita kicked a long, slow ball which Small fumbled but Vernon recovered. End of quarter and game.

Raises Team's Rating

The stock of the local gridiron artists has raised considerably in the estimation of not only local supporters, but neighboring towns as well. Wichita evidently was confident of a speedy and decisive victory, and used a tremendous number of substitutes in an endeavor to wear out the visiting opponents.

Wichita excelled in the forward passing game, but Vernon attempted few attacks of this method. However the work of the locals in blocking Wichita's efforts was especially good. Both teams were practically evenly matched.

The day was oppressively hot and doubtless accounted for the lack of spectacular playing. Attendance at

Frank O'Neal, deputy, and S. H. Baker, garage man.

Donates Use of Car.

"I'll donate the services of my new car," said Baker, when it was found that the husband had returned to Frederick with the boy, "and we'll go over and get it back."

There were hurried preparations for departure. Sheriff Ish boarded the 8 o'clock Frisco train in order to reach the scene sooner, and with a "Here's mud in yer eye," the rescuers set out for Frederick. Texas papers are of no avail in Oklahoma but Uncle Billy lets no trifles such as this deter him.

"You go in there and get the boy," he confided to the mother when she drew up before the sheriff's office at Frederick, "and I'll see that no one lays his hands on you. When she comes out, you Baker, you burn the wind for home."

Takes Child From Officer.

Inside the youthful kidnaper reposed serenely upon the lap of a deputy sheriff. There were no cries of "Give me my child," nor manifestations of emotion, the mother merely walked resolutely to the officer, picked up her boy, and disappeared out the door. There was a roar from the engine, husband dashed wildly from the door and ramped on the running board of the car—there was a determined shove from those within, and he sprawled in the gutter.

"Bake" burned the breeze in earnest until he reached the Texas side and an evening of kidnapping was over. There were several squeals of appreciation, an embrace or two thrown in, but well, all that is part of a sheriff's business too, Uncle Billy says with a grin.

the contest was fair.

Game With Paducah.

Coach Morrow announced yesterday that he has definitely scheduled a game with Paducah for next Saturday at the Vernon fairgrounds. The contest will start at 4 o'clock promptly. The locals defeated Paducah last season, and the up state team is said to be thirsting for revenge.

Following is the lineup used in last Saturday's game: Ferguson, l. e.; Colter, l. t.; Reed, l. g.; Blackwood, c.; McCombs, r. g.; Thompson, r. t.; Hollar, r. e.; Bramblett, o. b.; Small, l. h.; Parr, f. b.; Fain, r. h. Substitutions were Smith for Fain, Fain for Smith, and Bourland for Ferguson. Smith suffered a severely wrenched ankle during the game. Harry Viner, University of Missouri, was referee, and Alfred Dohoney, Virginia Military Institute, was umpire.

SUCCEEDS SECRETARY FALL AS NEW MEXICO SENATOR.

John R. Bursum (Republican), who has been elected United States Senator from New Mexico, to succeed Secretary of the Interior Fall, Senator Bursum is now serving out Secretary Fall's unexpired term. He was elected for the full term of 6 years over Richard H. Hanna (Democrat) and A. A. Sosa (Independent) by a majority of 7,000.

Mrs. J. T. Williams returned home Saturday after a visit with her daughter, Mrs. C. L. Green, in Wichita Falls.

Remembrance In Business

It does a man's heart good to discover that this is a far better and kindlier business world than he had thought it could be. He fairly radiates warm gratitude and good will.

Friendliness is a priceless quality in Business, a constant urge which makes sales more quickly and more surely than any amount of dry logic or argument; it cannot be neglected; it is too valuable; it must be intelligently fostered.

Just the reason our business has grown from year to year our friends remember.
